Bigger, bigger! Swell that dick!
Big and juicy, nice and thick.
Fat and heaving balls to match;
Got to brew that massive batch!

Let's not *focus* on your groin;
Let's give something else a toin!
On your chest, those tender nips,
Get them swelling! Give them tips!

5

Let them swell out like balloons;
Massive tits, like a cartoon's!
Swollen, tender, sensitive;
Too big? Nah, it's relative!

10

'Twixt your legs once more we'll go;
Let's urge something new to grow!

'Neath your nuts, upon that taint,
Something wonderful we'll paint!
Sinking wetness, swelling lips;
Eager match-up to those nips!

15

Aching, winking, gushing strong,
Craving something fat and long.
Show it proudly, like a badge,
'Neath your dick, your needy vag!

20

Look at all your oozing need:
One craves tightness; other, seed!
But we've still got one more site
To alter to make this just right... 25

Swinging back behind you now,
Something else we need to wow.
See, you've got a decent rump;
Now, we'll make it nice and plump! 30

Push it out and up and back;
Your new booty sure won't lack!
Massive cheeks, and bigger pucker;
Got to take on any fucker~

Secondary sex is done; 35
Primary now two from one.
Something else though; something further
'Fore we end this TF fervor...

What is missing? What to add? 40
Twofold sexes, drive you mad...
Ah! I've got it! Just the thing!
You're still human! That don't ring!

But, what should we change you to?
Needy bitch? A kangaroo?
With those curves and needy bits, 45
Gotta pick something that fits...

Maybe something serpentine?
No, that won't work... not canine...
Really only one thing suits
That bust size, cock, and drooling chute. 50

Starting with that silly nose,
Let's stretch it outward, make it grow.
Getting rid of facial fuzz,
Smooth it out, your brand new muzz!

Bigger eyes and pointed ears, New horns swept back towards your rear. Now, let's <i>really</i> grow that mane; They all look a touch insane.	55
Barbels? Yes? No? Let's say yes; I think they are just the best. Thicker skin—now don't you fret; We're not nearly finished yet.	60
Give it lovely scallop shapes; Start up high, then down they drape. Shiny, silky, sexy scales! Do you know what that entails?	65
Speaking of, let's see that rump; Push it out for me, don't slump! Yes, right here now, just above, Something new you're sure to love!	70
Push it out now, let it sway; It may feel just in the way, But I promise it's a must! 'Specially with that big bust.	
Longer, thicker! Yes, that's right; You're gonna have fun tonight! Gosh, I'm squirming THINKING 'bout That thick tail sexing, in and out~	75
Now, let's not forget those feet And hands; on dragons, they're both neat! Nice thick soles and pointed claws Both compliment your open jaws	80
There we go; I think we're done! A brand new hermy dragon, son! Judging from the scent, I'd bet your tender bits are swollen, wet~	85

Now, I'm not one to say "no";
Give your newfound bits a go!
Milk your tits and spread your lips;
Else, touch dick and balls, or hips!

90

I don't care; play how you want.
Please your shaft or aching cunt.
Maybe both? Go right ahead;
Oh, but one more thing 'fore bed.

You can touch all that you like,
But you'll never feel the spike
Of climax in your nether-bits
Lest someone else you find that fits!
