

Sonic's Journal

Dear Diary: Last night was the best night ever, just like that, last night was our first as a married couple. Two years ago i met Shadow in a bar. He looked like a good guy, furthermore, after a couple of drinks, we went to the bathroom, and we started to kiss with lust, like we had waited that moment for so long time. In a moment, he said me at my ear: "I wanna you be mine, only mine". Wow, i surrender myself and i put on my knees and i started to suck his dick, there wasn't any word who could say before i do it, it was...magical, i mean, he was too drunk but he looked he didn't mind it, plus, he was moaning from the forbidden pleasure he was feeling, but he stops me and said: "No, not here, i'll teach you something good for your fucking attitude, you can't behave like that, i know you have talent, but i have to train you, bitch". I woke up, and we wait until our dicks are enough flaccid to hide them and go out the bar. People says that the first kiss it's magical: that's true, Shadow can show that passion, even with his cold expression.

We walked, we chatted a while, what's happened in the bar wasn't less than a surprise. We arrived to the Shadow's house. Wow, i wasn't expected that Shadow's home would be so close to downtown. I get in, and i saw a very clean house, to the limit of the obsession...and that one wouldn't be the last one. He asked me if i was comfortable and he offers me a soda, to pass the drunk state. We sat, and kept chatting, and, in a moment, he asks me: "Do you wanna play a game?". I said yes without thinking. He smiled...in a weird way, like...satisfaction?. There, everything began. We dinner, and we sat on a comfortable couch and we started to watch TV. On a commercial break, he gets close to me, like a cat and he said:"What do you think if we met better each other, like a date?"- Wow, i never though he could move like a kitty -"And, i want to have a relationship with you". His lips was so close to mine i couldn't even think. I agreed without doubt, without knowing what i was getting me into. After a year of relationship without sex, we decided to finish what we started a year ago in that bar...but Shadow had another plans, and i didn't expecting that: my own leather collar. It was weird at first, i felt i was in jail, but i get used to easily.

When Shadow realized that i was comfortable with it, we went to his room, at first, it looked like a normal bedroom, but, looking between his stuff, Shadow shows me several boxes, a box was full of sex toys, the other one was with a lot bodage's stuff, like the ballgag, leather underwear, chains, ropes, and whatever you can imagine, i even saw feathers. I hug him from behind and i asked him: "Shadow, what's with all these stuff", and he reply me "This, my dear, it's my game, do you want to be my submissive?" I blush, and my heart started to speed up, so much that i thought my heart was gonna explode, but i agreed, i decided to deliver myself to the Shadow's love, i mean, its very obvious that Shadow wants to give me, not only pleasure, he wants to give me love, and i wanted to be with him. We decided which one was the flexible boundaries and the indisputable ones. Here's the list:

Flexible boundaries

Masturbation

fellatio

Swallowing semen

Vibrators / Dildos / Buffers / other

Spanking shovel / hand / whip (this carefully)

Nipple clamps

Bodage applied: hands (in front and behind the back), ankles, spreader bars, ropes, leather wristbands

Eye bandages

Dogging / Tickling / Fingering

Orgasm Control

Note: The time dedicated to these practices can't exceed the 30' minutes, plus, the Master have to care well to the submissive. Both will to maintain hygiene -Without discussion - and have a safe sex - Until to settle the couple -

Indisputable limits

Games with electricity (DC or AC)

Games urine / stool / feces

Games with minors involved

Games with fire

Use of drugs both legal and illegal except: Alcohol (in measure), pain pills (if necessary)

Games with any device that can ocasionar a wound, whether temporary or permanent

Can not control breathing

Wow, all this even exist? Is overwhelming, but, it sounds fun. I asked him when we would do it, and he said: "I'm gonna make you my submissive only a day at week, besides, i gotta an idea, but not everything have to be sex toys, could be more interesting stuff" - I blush - "Like your collar, think what would happen if i take you for a ride with that beautiful collar, Sonic, with a wonderful rainbow stockings, ay dear, i'm getting horny and we even started, what do you think about it?"

Sonic:-Yes...

Shadow:-Yes what?

Sonic:-Yes...Master

Shadow:-Good boy

That night, after a general review from what happened, i asked Shadow if i could take a bath. He agreed, and i went to take it. During the bath, i felt the need to masturbate myself before i get into the game, i put my finger into my anus, feeling something new, a raw and hidden pleasure for the most, and i started to fingering myself, but Shadow just got into the bathroom. I stopped, but closing the door, he said: "Tonight it's Saturday at night, we can start today, i hope you have ate well"

Shadow:-There's no need to stop, furthermore, i want you go on, i wanna see how far you go

Sonic:-Yes...

Shadow:-Yes what?

Sonic:-Yes...Master

Shadow:-Good boy

And i kept fingering myself until i cum

Shadow:-Eat it

Sonic:-Yes...Master

And i did it. Wow, i've never went so far, it taste something...salty, it is weird, because it doesn't taste like anything else i've tasted before. Shadow started to masturbate his dick until his cock was hard, he put his condom, and entered into the shower. -"You're gonna be a great bitch, that's what i expect from you my slutty submissive" -Even when all what left was semen's drops, Shadow took a few drops and lubed my ass, he puted his hard dick inside my and he started to fuck me, sometimes hard, sometimes soft. And i started to cum again, and again, and again. I never thought my body produced so many semen. Everytime i cum, i swallow my own semen. I was...loosing control. We finish the "bath" like 45 minutes later...Wow, talking about loosing things.

The next morning, i woke up, and i felt new, plus, even my walking was different, i can still feel my fingers inside me. I've realized that i slept in Shadow's home, and for a moment, i think we've connected, not like a Master/ submissive, like a couple. It felt so great. Mobius ever have looked so wonderful, so unique.

I decided to change something: i put 3/4 rainbow stockings, and went to breakfast. You have to see the Shadow's face, he looked like he was going to throw me to floor and fuck me so hard like last night, but, he resisted...and i knew it. When i ate the first cookie, i felt the leather collar. After that, we went to the mall. Honestly, before i met Shadow, i would never would go like i was dress, but that day, i didn't care at all, Shadow makes me feel so secure about myself. Already back to

home, we talk about moving to live together. My home or his? That was the question. We decided to move to my home, which it's in the suburbs, there in downtown we were too exposed. Wait, did i forget to mention that Shadow and i works in different places but we lunch in the same one?

We left the boxes on the living room, and we started to organize during the weekend. Wow, what i saw at Shadow's home was nothing compared to this, is...impressive what he has, i could write a book about it. Whatever.

After our first week together -Without the D/s game, because my dick still dropping semen from happiness since our "bath" -. When we returned to our game, Shadow put a timer in the cabinet, "For avoid forgetting the time" he said. Firstly, he gagged me - the ball gag . I couldn't speak anymore, i was at his service. Then, he tied me, putting my hand back, and he tied my feet, at first, smooth, then, a strong tie, i could move anymore: i was yours.

Shadow:-You've a nice body, that's a shame to waste it with a sluty bitch like you, but, don't worry, the only thing you can do now its feel how i get fun with you.

Then, he began to stroke the neck, chest, navel, and began to masturbate, it did until I was to the point of climax, but ...

Shadow:-Now i want you hold your cum until i say so, i wanna see you loosing in lust

And, with a few minutes resting my hard dick, he began to stroke my prostate, which was barely relaxed from the last week without fun. I felt how was dancing that part of me. After 10 minutes from that, he said

Shadow:-You're a good pupil, you can cum

I think i flood the room with semen. It was finishing once, and starting again, for a while, like 20 minutes. I never felt so good. while Shadow was unleashing me, even when i was cumming, he started to suck my dick and he said: "I love you".

During the week, we went shopping, eating outside, even the friday at afternoon, he fuck me on the roof- Outside was cold! - he said: "Sometimes you're too horny, this will teach you to control yourself"

Before celebrate our first month living together, he gave me two "gifts": The first one was -as i expected - a complete condoms set, my own lube; and the second one was...wow, i wasn't expecting that: my first sex toys, i'm not gonna forget this one ever. It was an anal wand -surgical Steel -, a wolf dick's dildo -like...13 inches, Shadow, how did you know it was my favorite one? - a couple handcuffs, and nipple clamps. I gave him a chocolate box and a double dildo -Yes, i have the same perverted mind as Shadow -.At the next day, saturday, we did the usual thing -we went to the market, we walk a bit for the park and we chat about something i already forgot -which, it's easy with him -: we work, and we enjoy our pranks on vacations, but Shadow has to get back to work monday and we wouldn't do our pranks for a long time, like 6 months, so i decided to use my

gift.

That night, Shadow has decided to make it unforgettable (as always). He blinded me, so i couldn't see anything. He took my hands and he handcuffed me, and he started to cuddle me. It felt so...beautiful, i knew his hands has smoothed, with baby oil or something like that, but, i began to moaning, but he put the ball gag - "Don't screw the moment, bitch" he said, and he started to put something on my penis. "I'm putting baby oil, just for put your dick hard and horny" and he started to caressing my anus, very smoothly. Then, he started to put a finger inside me, then, another one, like two or three fingers he put inside me. "You're ready" he said. My dick hasn't been so hard since...Who cares?. "Wow, this part of yours are very wide, i wonder why" he added, and he put a anal wand, ball by ball, meanwhile he was breathing and moaning in my ear. Then he uncovered me, and said: "I want the water glass i left on the kitchen, but, i need to handcuff you again, putting your hands in front of you" He did it. I went to the kitchen to get the water glass, and, guess what? The anal wand started to massaging my prostate. There Shadow said: "I'm gonna let you speak, i wanna hear your pleasure". This time, the pleasure was higher than the first time together. When i get back to the room, he was sittid in a comfortable chair, i gave him the glass, and he drank the half of the glass and he gave me the other half. "Let's finish for today". And he began to put out the anal wand, ball by ball. "Don't cum, honey, that's the prize" he said, and handcuffed, he sat first - of course, he's my Master - and, hanging from my collar, i ride him. Late that night and tired, we fuck again on the bed. When we finished, both hugged each other, i said him: "I wanna be with you until the very end of times"

At the next morning, i woke up feeling something weird...It was my penis in chastity. What? Shadow knows how to surprise me

Sonic:-What...what's going on Shadow?

Shadow:-It's something special, it will help you to contain your seed, plus, you're too sensitive, you've a wonderful body, that's a shame that i have to put you in chastity.

Sonic:-But you don't have to

Shadow:-Right, but it's true that i'm your master, and i wanna you feel pleasure without a pain
He smile

And just like that we started to work again, i felt the need to cum, and i told to Shadow, but he said no. But, a month and half later, he took me to a campus, very far away from the road, then, he put me out of chastity, and began to stroke my penis aganist his dick, and i started to cum, several times -with pain -That was all the day, i begged him to stop. "That's why i put you in chastity, to learn how to control yourself, to be a good boy" he said. At the end of the day, Shadow stimulated enough for my last orgasm. i cum enough to cover Shadow in semen. "You better clean this mess, boy" he said. I did it, with some satisfaction -. He put me in chastity again. And i didn't ask anymore to cum.

The last day of the sixth month, i was returning home, thinking which job had Shadow while i was

walking. I stopped in a jewelry store. They had a beautiful earrings but when i was thinking that, a man tries to rob me what i had in the bag. Somehow, he falls...dead. I see everywhere and i saw him: My own question was answered by him. Shadow saves me from this thief. He had a very huge gun, it looks like military one. I returned home asap. When i get back home, he was there. We hug each other and both began to cry, i think i cried more than him. At night, he released me from chastity. "You've earned it" he said. We didn't had sex since that incident, it was...complicated. One day, he came back home, badly injured. I knew something bad was going on, i mean, he shot a guy from a fucking huge distance and now he's badly injured. While i was healing his injuries, i remembered a quote i've read. "We aim to please" i told him, and he smiled, and we felt ourselves.

Finally, without sex intentions, i just gave him a tea, and we started to talk about what had happened that night.

Shadow:-You think i'm a monster

Sonic:-Yes, but i don't blame you

Shadow:-Why not?

Sonic:-Shadow, there's something in you and the way make love to me, that some time before you've been nice, but, i don't know what made you change at force. You don't apply punishments but, if you did some time, you were very carefully to not give me a lot of pain.

Shadow:-You want to i quit to my job?

Sonic:-No, i just want to be with you until the end of times with you Shadow, i love you so much, and i accept you as you are: a killer.

Shadow:-You want to know what happened to me to be the person i am now?

Sonic:-It will a privilege.

Shadow:-Everything began 50 years ago, at space, more precisely at the space colony ARK, i was living with Maria, she was the Professor Gerald Robotnik' granddaughter, whose was the best scientist over the world. They were doing the ultimate life form, and i thought i was an experiment to see my interaction with humans. I was wrong. In a moment, people came from Earth, and started to kill everyone, and they were destroying everything. They took to Professor in custody. Meanwhile, Maria and I started to run, but she only could save me...because someone had murdered Maria.- *Pure silence*- In the first Maria' death anniversary, i was on the graveyard, someone came to me and asked me if i want to earn a lot of money. Sonic, i was in the ruin, i was drunk, everything was a disaster on my life, i needed a rescue. I took the job. Oh such a cruel fate, my first murder was the same guy who shot Maria at space colony ARK. I kill him as soon as i saw him. And there everything started my murderer career. I thought i would die with that. Since Maria was murdered, every year i felt a new shadow was taking over me, until i met you. You

started to protect me from that shadows, how much time we have been a couple? I lost the time
Laughs

Sonic:*I smile*-It's the first time i hear you laugh with sincerity, it has been...almost two years since we met. That's funny, because i thought you would ask me that, so all i want to ask you for tonight is:-*Shadow gets expectant*-Shadow the Hedgehog, you want to marry me?-*I show him the ring i brought from the same jewelry store Shadow killed that thief*

Shadow:-*Surprised* Until the end of times, my beloved Sonic

That one, was the first light he had between his shadow...his 50 shades.

A year later, we get married, and since there, our life began to be better than our separate lives.

It was interesting how things came to...almost normality. Shadow became an expert killing people, and a better lover. About me, i ascended on my job, because the company got better results. About us, we're happily married, playing *again* the D/s game, with a lot of new ideas, with some fix, we add the gun use to the Indisputable limits, and, we tried something different, like, being stand instead staying sitted, tied, with a spreader bars and with a vibrator inside me. Shadow began to touch my skin. Very smooth hands you have, dear. I cum as fast i could on purpose, because i wanna get spanked and be released to clean my Master's chest. Yes, he use the Spanking shovel, but, he didn't release me, instead of that, he loosened a bit, just to get close to him, and clean him, but, in the meanwhile i was cleaning him, he was getting off my vibrator from my ass, just to feel how i was getting close to my climax. When he finally pull out the vibrator, he just put behind me and fuck me. When he cum, he puted his dick in my mouth to clean it. When finished the game, we just started to talk about other things (Not everything it sex)

Next morning, i woke up with a surprise: My own uniforms set!. The first one, was a US high school uniform with a red Scottish pattern, the second one, was a Nippon high school uniform, the third was a maid' uniform, the fourth was a nurse uniform -Someone want i heal him some "Injuries" - and the last one was a rubber suit, all with a note: "For my dear Slave, for each fantasy, with love, Shadow". Shit, how he know that fetish of mine?

Being monday, i decided to make a little surprise to Shadow, and i went to the mall. Guess what happened there? I meet again with Knuckles and Tails, and i told them about my relationship with Shadow (not too many details). Both of them congrats me and we decided to go shopping. When we were at the check-out, they felt surprised, i was buying a green and black stockings with a heart' shaped tshirt with the same combination. Okay, we agreed we would meet again soon to-be updated with the news of them.

I wear it that day: I was really sexy (i've to admit it). I heard the door: It's Shadow. He's bringing a box, i think a chocolate one. I hug him and he left fall the chocolates. I eat one...very slowly, just to make him horny, i want he gets so fucking horny seeing me eating and looking what i was wearing. I suck my index finger, i'm feeling his horniness, and he knows i'm enjoing it, and he's happy with that. When i realised, his dick was very hard, almost cumming. Shadow says: "Excelent, now my

dear slave, show me that ass of yours". I turn around and i do what he says: I don't have any underwear, just a little buttplug hides my pink asshole. It's funny how love he has for that part of my (besides another ones). He began to massage me but, he doesn't go where i was expecting. He started from my butt, then he goes up to my hips, and, with his cold hands, touches my back, from there, he goes to my chest and goes down to my penis (already hard too, by the way). With his other hand he took off my buttplug and i make a moan, and he kiss my neck, and my lust was growing so fast than i can't even hear my head: I'm getting close to my climax, but before that, i fuck him (it's not saturday, so i can do it). I kiss him in the neck and i start to go through his body, full from sadness and pain. I'm feeling like i'm healing him, and he's carried away from these new feelings, not to be always in charge, we're a couple now, both of us are Master and Slave at the same time. I think that room has never been filled with so much intensity the pleasure, so stifling, so...perfect. Then we get up, and he push me against the wall: my heart speed up, he kiss me, and everything speeds up, even the time. Both feel we're reaching the climax, but none of us knows when will happen. He penetrate me and i make a moan so loudly, and he speeds up, i moan faster and louder, and more, and more, and more...finally, when both we're going to cum, he pull out his dick and we cum each other. Some chocolates has been covered by cum, so we eat them on the floor. "We aim to please" i said, and i fell asleep.

Every night i tried a different suit, just to make a different role play every day and use our sex toys collection. Shadow says the high school's suit suits me better than the maid, but, i know he enjoy every single one.

I started the monday with the US high school suit, and we made that night unforgettable (as always). I undress Shadow...slowly, kissing his fur first, then his chest, then his belly and finally, his member. I turn around, showing him my modeled body, making him notice my butt. I get off my shirt, showing proudly my leather collar whose say "Slave". I take a sex toy, i put a bit of lube on my hand, and i started to put on my beauty and pink asshole, lubbing every inch inside of mine. I put the sex toy and i put it on my lubed butt, and i let Shadow take control over me. He turn me around to check me. When he approved with a kiss on the belly, we go to the bed. I lay down, and got up my well formed ass, then he pull out my toy (I loose my brain, so much toxic horniness on my head) and he began to fuck me, he started slowly and smoothly but then he goes faster and harder...really hard. It make me take a pain killer...i can't think how much i scream from pleasure...and i blush thinking about that.

Tuesday was almost the same with the Nippon high school uniform, besides Shadow was very smooth at the sex time.

Wednesday we played at the nurse room, and i took my revenge, beginning to check Shadow's prostate. It's a pleasure to see how he tries hanging the cum while i suck him his dick, his eyes show that he's more horny than a Australian fire. Then, i gave him an enema, and, surprisingly, he was clean there. Some little secret, my dear?

Thursdy i was the maid. I knew what time Shadow arrives home, so when i arrived from my work, i had an hour, and put the suit, and i began to clean the house. When Shadow gets back from work,

i let fell a glass and it brokes...oh no, that's no good.

Shadow:-Oh no, dear. I had a nice day at work and i don't want to let screw that way, come here.

Even Shadow can make his angriness sound sexy

Shadow:-Today you've been a bad boy, how i have to punish you, my dear slave? Put like an animal, i'm going to give you some spanking.

Sonic:-Don't be hard, please, be gently.

Shadow:-I'm going to give you a fair punishment

Saying that, he started to spanking me, more harder each one. My member it's everytime more harder...Only Shadow can make, even some pain very pleasure. In due time, i cum.

Shadow:-Looks like you're a bad boy on propuse, come here, this it's going to be nothing.

He took me at the bedroom, he put me a gag. He ties me up, and he put me spreader bars (Widely, okay, that's new) he pulls a whip (i think a leather one) and starts to spanking me. I can't speak, i'm totally at my Master and Beloved's service. My mind starts to blur into lust and pleasure. I felt pain, and i can't take more. I beg him to stop. He stops.

Shadow:-Have you learned your lesson?

Sonic:-Yes master

Shadow:-Good, now i'm going to put a cream over your red ass

Sonic:-Thank you, master

A week has passed from Thursdy, and finally, we get to Friday: The latex's suit

Sonic:-No Shadow, i already had too much last week with your spanking, can't we just let...

Shadow:-Dear, am not going to spank you here, plus, it's not my intention to let you aching, besides, i don't need spank you here, just...enjoy it

Sonic:-Ok, i'll try

I undress, and i put the latex suit. hmm, it feels nice (i didn't expected that) and, i notice something i didn't before: it has a hole...at my butt!

Shadow:-I'm not going to spank you, but it doesn't mean i'm not going to fuck you hard-Says with nature- Now, don't move. I get leash to the wall from the collar.

He open the butthole, and he really starts to fuck me really hard, he include in the game some dilator toys (of all kind), while i feel my brain leaves the place (once again). I reached the climax

several times. When we finish, it starts to rain. I can hear raining really loudly.

Sonic:-It's raining-I barely say

Shadow:-Yeah

Sonic:-I love you Shadow

Shadow:-I love you too Sonic, let's go to eat, you've to be famelic

I undress and i see a lot of cum. Wow, i'm still discovering my body

Shadow:-Don't worry about it, it is easy clean.

He knows me, he answered a question i've never asked. And we get a bath. We talk, eat and see how rains outside, everything almost at the same time.

With the time, he allow me to get into his killing world, he tell me the details of his weapons, i don't listen to him, i'm quite busy admiring this wonderful guy with i get married, he has a nice soul and a nice body...How can i be so lucky?. I hug him with a smile.

During our second year of relationship, we started to go out more often, from raves to formal meetings, and i'm quite privileged to see the Shadow's transformation, and i saw a Shadow totally relaxed, so unworried than some day we fuck in the middle of a rave. How many people saw us, a 1k, a 5k, a 10k? I don't care, We were ourselves, in our tiny world, and everyone, looking our world.

After our third year of relationship, Shadow proposed something i never could imagine from him: Add to Knuckles and Tails to our world, and added: "That little fox can help us with his tails with a game i want to play". At first, it was so sudden that idea, that i was on disagree to include Knuckles, who i know from a long time, and i know he won't agree. About Tails, that was a very talked issue, because i'm his friend, i don't know how far he would accept to do it. He said he got a point, considering that Tails had a short romance with Cosmo and Cream, and he asked if he could ask him about it. I said no to that, and i asked him to be whose ask him.

Days passed, and talks have been with Shadow, until i've decided to talk with Tails: Clearly i was on disagree with this, because always i think Tails "it's too young" for this, but last night Shadow got a point: "Tails is already an adult, he can make his own choices and figure out the risk of everything, and sometimes, he's more adult than you." I couldn't reply him that.

I set to see him after his work. I was arriving at his house and i notice two cars. Oh well, he brought a workmate. I ring, nobody open the doors, but i got a copy of his key. I open, and...Surprise! There was another fox...in the couch and naked, and both doing it. Okay, my own doubts has been cleared. They noticed me, and the unknown fox leaves the house and Tails, trying to cover himself, ashamed of...what?. I sat on the sofa. A long silence was felt on the room, but it only took...5 minutes?

Sonic:-So, are you...bi?

Tails:-Yes, i never had talked with anyone, but, when you told us you were with Shadow, i felt happy for you, and, at last i could bring some workmate to work at home, and...well, you know...*Laughs*

Sonic:-I just came to ask you something we've talked with Shadow and i was wondering if that it would like you, but, that was 10 minutes ago, so, now i only think if what i've to ask you it's going to like you to "open yourself"

Tails:-Do you want i ask Shadow instead?

Sonic:-Yeah, i think that's going to be the best

At the next day, Shadow and Tails was talking about that when i was leaving to work. I get a message from Shadow: "You bet get ready, honey, tonight you're going to fly high from pleasure. Shad". It wasn't a normal day, lots of lobby, lots of phone calls, something was wrong. At midday, i go to lunch, and i found Shadow eating. I sit with him, and i ask him what happened with Tails. He says that Tails is an adult and he can take care of him, bla bla bla. I only feel horror. Shadow notices it and he calms me saying he won't hurt him, but my head is afraid about what could happen to him. I put an horror face, i almost cry, and shadow calms me saying he won't participate with us, that Tails said that he only wanted to be in love with someone else and i've been in a Tails' date, but, Tails gave him some ideas, just to do something different. When i get back from lunch, i'm feeling that the office's weather is troubled. I asked Amy what's was happening and she says everything was alright.

I return home, and at dinner, i say to Shadow that i wasn't on mood to have sex. Surprisingly, he gets up and hugs me, and he gives me cuddles, saying that everything is going to be alright. We get into the bed and i notice something weird...I was tied! Shadow leaves the room, and he came back with a box. A black one, or a blue one? I can't see it, but, i know this is going to be fun. He take a lube, put a bit on his hands and starts to lube my penis. Then, when my dick was well lubed, he put me a titanium ring right there. Okay, i wasn't expecting that, and his smile so dark and sexy. He began to massage it, and moaning at my ear, Bitch!. I start to feel horny, slowly, i began to moan, more aloud everytime, until i notice i need to to pee.

Sonic:-Sha...Shadow...i need...i need to to pee-I said while i'm moaning

Shadow:-Just...just hang on...you'll enjoy it...more

That's true, the effect was very powerful...i almost lost my head (again), but, when i was so close to cum, he stops, and he starts over again, and he stops, and again...

Finally, i cum, not like the other times, but, my orgasm was 100 time more intense than so far.

Shadow:-Happy birthday Sonic, You're so beauty tied up at bed. Perhaps you sleep like that.*laughter*

Sonic:-Shadow!

Shadow:-I was kidding, i don't mind if you are or not tied up, you're beautiful anyways.

And he finally release me and we fall asleep.

At the next day, my worst fears has been confirmed: The company broke...last night. At the entrance, they told us we only could take our stuff, and say goodbye. That means that, at midday, i'm going to be without job and with my last pay. It was the hardest morning i had. Talking with my workmates, the company had done some nasty moves and it didn't work. (Yeah, i can see it). At midday, we leave our job, and, sincerely, i don't want to go lunch. I took my car and i go home. I try not to cry in the middle of the way, and i got it. I entered to my house, i close the door, and i sit on the floor, begining to cry. I cry all the afternoon. It was night, and Shadow returned home. he notices i'm on the kitchen, drinking some tea, and i look him, with a face of devastation. Shadow hugs me. That hug feels so...warm, almost like Shadow knows what happened, and i feel his shadow covering me, how they take care of me...

Shadow:-No (always reading my feelings)

Sonic:-No what?

Shadow:Don't let my shadows take over you

Sonic:-Do you knew?

Shadow:-No, what's happened?

Sonic:-Company broke...last night

Shadow:-Hm, i'm so sorry honey

A pure silence

Shadow:-Come with me (breaking the silence)

We leave our home, and we went to downtown, we entered into a closed building, hm, looks like Shadow knows how to get in, why doesn't it surprise me?, and taking the stairs, we entered to the roof.

Sonic:-Wow, what a wonderful look, Where are we?

We sat at the border

Shadow:-Do you not remember this place?-Asking me like if i knew were we are-Look that store, that's the same place i killed a thief who wanted to steal your bag.

Sonic:-Wow -i can't hide my surprise - I love the view, we can see a lot from here.

Shadow:-I'm glad you like it...can we come back?, tomorrow you've to start again

Sonic:-That's not true...i got you!-I smile

Shadow:-Right, let's go, the morning it's coming.-leaving the roof -Have you updated your curriculum?

Sonic:-Crying, but yeah, why?

Shadow:-Just asking -He touches my ass -Yeah, we can get much fun -His smile make my morning better

Sonic:-Shadow!

Finally, i got a new job, perhaps its not good as the last one, but we can live peacefully for a long, long time...until the end of times, together, always.

Sonic the Hedghehog.
