

June 14

(Bret)

I'm going to tell this story as though it were just after the event.. journaling. Should make things more clear – better understanding of why things happened the way they did.

(What I was thinking around May)

I consider myself a normal archaeology student.. tall, little chubby, curly blonde hair, likes reading, anything stereotypical basically haha

But anyway, I'm really concerned with my roommate.. he has a bed just on the other side of the room from me, and things have been.. strange lately. He is starting to look more and more like a girl.

(what I was thinking around June)

Ok so if I'm going to be honest, Colin was fucking gorgeous by this point. I'm talking model gorgeous 10/10. He looked like a girl, but I could still see from the tight clothes that he's wearing these days, he's got a big dick.

The weird thing is, I'm not really bothered by that fact. I used to think I was totally straight.. but after Colin.. I'm not so sure!

Something crazy happened today.. I tried to ask Colin about what was going on with his appearance. I had my suspicions about him transitioning to be a female.. you know.. trans

But he insisted he was a guy, and wanted to remain that way! He's sick or something..

I kind of started to tell him that he looks.. well.. hot.. but I couldn't say it. I had to leave.. this was just too crazy, and the tension was high.. I headed a few blocks down to the park and sat down to collect my thoughts. After a little while I decided it was time to head back, after all, I didn't want Colin to worry.

When I got back to the apartment, I heard Colin make a little "eep!" when I turned the key.. I heard some rustling, but when I got in, he looked to be asleep. I'm no idiot.. but nor did I have any idea what he was doing.

I got ready for bed and climbed in, only to smell something.. strange
I decided to just ignore it and go to bed.

June 15 2011

I woke up in the morning with a raging hardon.. this wasn't just morning wood.
Something smelled unusually good. The scent smelled like a sultry woman.. like sex..
smelled like flowers.. or an ancient bathhouse.. it was making my dick twitch, just
from the smell!

I was pretty horny, and decided to risk jerking it in bed. Colin was probably still
asleep anyway. I started jerking it just to the smell alone when I noticed
something..

I shifted my pillow just enough to the side to see that there was something under
it.

Cum. There was no mistaking it. Did Colin fucking cum on my pillow??

I thought there for a moment, and realized that I wasn't mad but.. aroused

I couldn't stop myself. I started licking it off of the pillow. It tasted really
good! I didn't think cum would taste so good. I just started thinking about Colin
cumming on my pillow, plus the scent of the cum.. I couldn't hold it anymore..
I started cumming in the sheets.

After I regained my composure, I got ready to take a morning walk.

Later..

When I got back, I was hot and sweaty.. it was blazing hot that morning.. and all
I could think about was Colin cumming on my pillow. It was making me so horny..
I had to fap as soon as I got back.

Colin was wearing this jacket for some reason, and trying to cover his obvious bulge,
which made me think about the act all the more.. I locked myself in the bathroom
and rubbed one out.

When I got out, Colin was acting really weird, and asked me if I wanted him to make breakfast. He insisted so much I just let him.. started reading a book a little, and by the time he was done I was pretty hungry!

He sat down in the chair next to me, and he was tugging his coat down really hard so as to cover his bulge.. he looked so cute!

The plate looked delicious, and I started in immediately. I had no idea Colin was such a good cook! It was so good that it somehow started making me hard? this seemed really odd. I made sure to scrape the plate clean with my fork, eating every last bit.

June 18 2011

I have woken up in the middle of the night a couple times to hear Colin fapping in the bathroom, and just last night, I heard him actually leave the house! I checked the clock.. 12:53.. what was he doing?

I should also mention that I've been feeling really really horny lately. I fap all the time now, probably 10 times a day. The crazy thing is, I think jerking it this much has somehow made my dick a little bigger.. now I know how that sounds, but I measured like 6 months ago at 5.5 inches.. but today I felt like my dick had some more heft than usual, like it was swollen or something from my fapping so much. I decided to measure, and of course swelling would increase the girth, but length? It did look longer somehow.. so I thought why not? I measured in at 6.. a half an inch for no reason? I mean the only thing I changed was how much I fap, so it seemed like that had to be it.

Also my dick just kind of looks a little funny.. I'm tightly circumcised, but the flesh on my dick seems just a little bit looser, so that when I'm soft, the skin on my shaft seems to touch the rim of my glans

June 20 2011

Colin offers to cook for me all the time now, which is pretty awesome because I don't like cooking. I feel a little bad always accepting, because it seems like

a lot of work.. but his cooking is just so good! I can' t help myself

Colin goes out at night all the time now, which is cool, because it gives me a chance to rub a couple out while he' s gone. It' s kind of weird.. but.. I really only think about him when I fap

Also.. I think Colin is putting extra protein in the food he makes me, because my muscle definition has gotten way more noticeable.. I' ve lost a little bit of fat too.. I guess that' s even more reason to keep eating the food he makes, I get better muscle definition and lose weight!

June 24 2011

Might sound crazy, but I swear I haven' t worked out at all to achieve this..

My muscle definition has gotten so good, and I' ve lost so much weight, that you can' t even tell I was anything other than chiseled. I mean, I look like a male model! IT' S AWESOME.

My face has gotten a lot clearer too.. I used to have a little acne, but now my face looks spotless.. in fact, my face looks so manly now that I can' t seem to keep the facial hair off haha! I have to shave every day now

The crazy thing is, my fapping routine is still making my dick bigger.. I thought that it would sort of be less effective after a while or something.. but it just keeps getting bigger

I measured today at 7.5 x 6

I guess the only down side to the fapping routine is that it keeps stretching my skin on my dick.. Now the really weird thing is, I know what a "restored foreskin" looks like.. it' s mostly just stretched skin.. but this skin well.. it looks like my foreskin is regrowing. When I' m soft, it covers about half of my glans

June 26 2011

I was really really horny today, and I may have done something I shouldn' t have. I was walking past Colin while he was cooking something for me, and I was admiring

his perfectly shaped, plump butt.. it was so gorgeous.. for some reason I instinctually slapped it as I walked by

He seemed stunned, and dropped the spatula he was using into the pan

Quick quick say something! "Uhh!! good game ha ha heh..h.."

He looked at me wide eyed, then started to get this grin

"I've been hearing about these multivitamins.. supposed to be really good for your metabolism."

I sat down and he placed a plate in front of me.

"Here." He pulled a pill bottle out of his backpack lying nearby, and dumped a few into his hand

I plucked one out of his hand and downed it. He plucked one as well and swallowed.

He had a quizzical look on his face for bit, before he suddenly blurted "You should take a few more!"

He suddenly leaned over and shoved a bunch into my mouth. His hands were just like a girls.. soft and delicate.. I was so aroused in this moment that I swallowed all of them, and even licked his hand a little

He gave out a cute little noise of surprise, and leapt backward. I looked at him with surprise

"Uh.. sorry.."

I couldn't believe I just swallowed all those pills.. I downed the meal, and forgot about it until that night.

I woke up with the typical Colin heading out, and rushed over to the bathroom.. something was different.. I stripped, and looked at myself.. I was so perfectly chiseled that I was like one of these perfectly chiseled statues Greece is so covered in.. not to mention, my face looked so perfect, that it could just as easily match.. the only thing that didn't match one of those statues was my dick..

My pubic hair had thickened and gotten a little darker.. it extended in an abnormally thick happy trail up to my naval.. this was not what it looked like this morning. I looked in awe as I watched my dick visibly grow before my eyes. It was completely flaccid, and I could see that it was growing longer and thicker.. it started to get hard and I was more ready than ever

I started fapping so vigorously that I think I made my stretched skin even longer. I could drag it all the way over my glans.. very different from this morning. I was fapping so hard that I could feel my balls ache.. They felt so incredibly full..

I went down to my knees, and felt my ball slap both of my thighs as I did. I came instantly and sprayed an inhuman amount of jizz onto the floor

What the fuck is going on? I looked down at my dick.. it looked enormous

I had started leaving a ruler in the bathroom, so I grabbed that and measured quickly in front of the mirror..

8.3 inches x 6.5

If that wasn't startling enough.. I noticed my balls. I gasped as I could see they looked like they had doubled in size. They looked like freaking limes! My sack was hanging really low, and felt ready (even now!) to produce liters of cum.

I was pretty worn out from this whole experience, so I took a shower.. As I washed off my perfect body I noticed that my pubes weren't the only hair that had grown thicker and darker.. my leg hair has gotten really really thick. It seems like all of my body hair has become brown. This theory was confirmed when I got out of the shower to see that the hair on my head has turned brown too, and.. grown a little longer?

June 30 2011

For some reason I keep sneaking those pills Colin told me about.. I was thinking they make me blow bigger loads, but there have been many more changes too.. now I'm wondering if the pills are more than what Colin has led on..

My hair continues to thicken.. I kind of look strange now really.. kind of bestial or something.. and my dick has become wayyyyyy bigger than any human I know. Measured

today at

10.5 x 7

Also I know this sounds crazy, but I'm 100% sure I regrew my own foreskin. In fact, it has regrown so much that even when I'm hard, I have to pull it back.

My balls too have gotten bigger (like I need that!)

They look like oranges now, and my sack hangs just a little lower

My whole package is so huge now that I have to pick my clothes carefully. I go out less these days, because I get too many looks.. even if a lot of them are lust

July 1 2011

I couldn't stand it anymore. I was going to fuck Colin's brains out.

I knew he wanted it, he walked around the house every day with a raging boner. I wasn't even going to be subtle about it.

Colin was making another meal for me at the stove, wearing tight jeans and a sweatshirt.. he was sweating and pretending not to grope his dick, looking over nervously every now and then. His hair had grown to a normal womanly hair length, and he had it up in a ponytail.

I gave him a sly and sensual look, and unbuttoned my fly. I let my pants drop to reveal my soft 8 inch dick, with balls hanging.

The look of nervousness left Colin's face completely, as he threw the hot skillet into the sink, and went to his knees. He started groping my dick with both hands, and it was hard in seconds. He started licking my shaft, slowly headed towards the tip. He pulled my foreskin back and licked the head sensually before cramming my huge dick into his mouth. He couldn't get all that much in, but it was still impressive.. and his girly face was so adorable.. the expression was priceless

"Don't.. what I really want is you."

He stood up blushing, but apparently stood up too fast. I heard an audible snap, and I watched as his sweatshirt filled with once hidden tits. My eyes went wide,

and pre spurted from my dick, as he slowly unzipped the sweatshirt, revealing his big, perfect rack. I wondered how he even hid these huge things..

I rushed to embrace him, my dick sliding between his legs, and my balls slapping against his thick thighs as I kissed him lustily.. As we made out we undressed each other, and I caught glimpses of flesh I was so eager to see.. Colin' s shape was so perfectly feminine, and smooth like an elf

We moved to the bed, and I pushed him onto his back.. He lay there in the missionary position, and I could see his cock quaking.. just below it I saw something I only half expected.. a pussy.. not only that but one that was so engorged and plump, I felt confident I could make it fit

I stuck the tip in, and immediately Colin let out a gasp and a wince.. My cock was huge, so I started to ease it in.. he was so tight, and yet, he seemed to accommodate me more and more as I begin to slide in and out

He moaned seductively as I fucked him like we both wanted, my balls slapping his plump ass

Then Colin did the unexpected.. he grabbed my shoulders and pulled me down toward his face.. he kissed me, then we started to flip.. he sat on top of me in the cowgirl position, and I could see him in all his beauty.. he let his hair fall out of the ponytail, and stroked his body.. down his neck.. his breasts, his stomach, down to his pussy, and onto my throbbing dick. He slid me right to the hilt, and cried loudly with pleasure

"Bret.. I've been wanting this for so long.. and now.. now you can finish"

As soon as he said that I started cumming, and I could feel my balls quake.. and GROW

I couldn' t believe what was happening, but my balls were literally growing.. I could feel them expand against Colin' s plump butt.. I watched my body as my hair thickened even further, becoming unmistakably bestial.. a fact raced through my mind.. my appearance.. I was turning into a Satyr

With every insertion as Colin fucked my meat, I could see my cock get even thicker and fatter, and I could feel it growing longer inside of him

I came for an eternity.. in absolute bliss..

I don' t know how much time passed, but I was spooning Colin as he slept.. I looked down at my legs, which had become powerful goat legs.. they were so powerful looking I can justify saying Clydesdale legs..

(Colin)

.. and I have more plans for Bret
