

"What about our relationship!?" A harpy girl whose face resembled Hotep's beneath the golden mask and wide brimmed hat dressed in golden and black cloths, and wearing a golden hat obscuring her dark brown hair that was currently down in braids and decorated with jewelry screamed at a man clad in a purple bodysuit with armored straps and a green gasmask with red lenses. His sickly green hair was messy and uncombed as it was done in a ponytail with strands of it sticking out here and there.

"What about it? There's nothing left to it, just admit it already." He said,

"Yes, there is! I still believe we can love each other!" She yelled again,

"If that's so, then why don't we just reintroduce ourselves? My name is Yinying, the clone of Shadow and shadow warrior." He held out his hand,

"Ahem, and I am Aviana, the clone of Hotep and grand queen." She happily responded by shaking his hand before he pulled it away,

"There, now I hope to never meet you again." He turned around and continued to dig through the pile the two created long ago when they first decided to live together,

"What!? Hey! I hate it when you do that! Don't you know that's considered weird!?" She angrily told him,

"And don't you know it's weird to try and keep this relationship going even though both of us know it's for the best just to quit it already!?" He began raising his voice,

"I don't like it when you yell..." Tears began forming under Aviana's mask,

"And I don't like it when you insist this relationship will work-!" He heard her crying.

He stood back and pondered what had happened for a moment,
"...I'm sorry about that... I think I'm going to get going now..." As he turned to the entrance he was stopped by Aviana,

"Wait, but I can feel our love growing inside me!" Yinying looked at her with confusion,

"Have you lost it? You aren't... pregnant, are you?" He asked worried,

"Of course not silly, I'm talking about my tummy..." She pointed to her stomach,

"Yes what about it- is it growing?" He looked in shock to see it begin to grow,

"That is our love filling it with delicious treats and substances. Like cream filling, cake batter, cookie dough, and delicious mouthwatering frosting." She blushed, heavily embarrassed at this sudden event but went along with it,

"Yeah right, it's probably just that "solar power" of yours at work. It's just one of the unexpected things you can do with it, now cut it out." Yinying told her off,

"I... I-I can't," Aviana replied,

"Very funny, now knock it off." He didn't buy it,

"No really, I can't. Do you think this is some kind of joke?" She angrily said,

"Yes, and I don't really believe you here." Yinying decided to stay around,

"Do you know what you're doing here?" Aviana became quite giddy at this point,

"Um... nothing at all?" He sat down on the bed,

"Your love for me is what is causing me to expand!" Yinying looked at her unamused,

"Did you hit your head while leaving the clone pod or something?" He asked her,

"No." Aviana simply replied not really understanding the question,
"Then you must be incredibly delusional to think that woman." He received a slap from her so hard he fell off the bed,
"WHAT THE HELL!?" He screamed at the top of his lungs,
"I want to test something here. Would you come over here and kindly give me some love?" Aviana asked him while fluttering her eyes.

As Yinying stood up he looked at her in anger,
"After just slapping me like that!? Are you serious!?" He yelled in a fury,
"Yes now come over here and hug me, kiss me, do whatever we consider romantic with each other," Aviana told him,
"Well, if you say so..." He walked over to her and stood behind her,
"Hey, what are you- AAAAAAAH!" She felt pinch on her bottom,
"THAT'S NOT WHAT I MEANT! YOU KNOW VERY WELL I HATE THAT!" She turned around to see Yinying snickering,
"Really? I swear I remember you liking that- OW!" He felt another slap across the face,
"CUT THAT OUT!" He shouted now enraged,
"Then just hug me or something, what I actually like." Yinying sighed shrugging his shoulders,
"If you can't beat em', join em'." He affectionately hugged Aviana. Her stomach bellowed even further as it glowed a bright shade of yellow,
"That's more like it..." She said pleurably,
"Sssso you like that huh...?" He whispered in his snake-like voice,
"I do..." She moaned when she realized where he was going next,
"How about this?" He suddenly grabbed hold of one of her breasts,
"Just hurry up and take off the shirt already." She felt her armor and clothing come off revealing the strangely marked body with a marking on her stomach and breasts,
"Is it just me or did this tone shift very quickly?" He whispered into her ear,
"It did, and I love it." She replied,
"Me too, I think this skirt of yours is getting in the way of things here." He slowly undid the skirt as Aviana could feel her stomach suddenly begin to surge out even faster.
"Yes... oh yes..." She moaned in ecstasy.

As she moaned Yinying couldn't help but take notice of something strange,
"Is something else growing here too?" Aviana felt a hand grab hold of her butt. It indeed feels softer than before, he then quickly grabbed her breasts once more to notice they too were also bigger than originally,
"Interesting... I think we could have some real fun with this..." He said,
"I agree. My body is all yours tonight, master..." She said in a tone of voice that showed she could barely keep herself together. Her legs were trembling both at the weight of her stomach and the amount of ecstasy her body was feeling at the moment,
"Alright loyal servant, why don't we go somewhere with a bit more room?" He said taking her by the hand and leading her away from the entrance.

They made it into a room the floor was practically one giant bed itself. As they made it to the middle Aviana couldn't hold it anymore and began leaking. She collapsed onto the floor causing her entire body to shake on her belly as it grew tremendously,

"It... it... it feels so nice! Please! Master, please! Make me moan in pleasure! I need more! So much more!" She screamed out,

"Just be a nice little harpy and master will make your wishes all come true..." Yinying said, "I will! I will! Just please give it to me!" She said ready to get it. Yinying chuckled as he slipped off his clothes minus the mask and hopped onto her as her belly swelled greatly and now glowed a great brilliant gold color. Her stomach now elevated Aviana four feet into the air at this point,

"Oh I feel the warmth, the slimy substances inside are becoming warm with our love. Perhaps we'll make cake within me..." Aviana said excited,

"Either that or you're becoming a living oven, again." He mentioned,

"I can feel the treats inside just boil into one slimy gooey substance into one..." She said,

"I-I-I can feel them all melting away in my tummy." She could feel her love suddenly jumping onto and scaling her jiggly, plump stomach as he reached to her behind,

"Soon you'll feel all your troubles melting away," Yinying mentioned as he undressed and took out a condom,

"What do you- OH! YES! FINALLY!" She could feel him go to town on her crotch. She moaned in euphoria as she was lost in the pleasure of it all.

"*Pant* Yes! *Pant* Just *pant* what *pant* I *pant* needed *pant*." She was at the peak of her orgasm when Yinying gave one more push,

"YES!" She screamed out.

Yinying pulled his member out and put a towel on. Aviana was too lost in the moment to notice him moving over to her face.

"You having fun?" He asked,

"*Gasp* Fuck yeah... *gasp*" She heaved in and out catching her breath,

"*Gasp* I think I *gasp* feel myself *gasp* leaking some more... *gasp*" Aviana finally felt herself recovering from her orgasm,

"And you're still growing too," Yinying mentioned, he was correct as the glow only shone brighter than before on Avian's stomach. They were now elevated to about ten feet in the air and her bosom and behind were now inches if not feet thicker than they last checked,

"Our love will not stop my growing anytime soon. That's how strong it is." She said passionately and lovingly,

"Well if it doesn't stop then it's gonna crush us beneath the roof above us." She looked up and noticed that the roof would probably be a problem,

"Then I guess we have to find a solution soon." She mentioned still a bit distracted by what had happened just a few moments ago,

"I must say, this escalated quickly," Yinying commented on how fast they went through the motions of making love with one another,

"Maybe once I stop growing would you be interested in round two? Master?" Aviana asked innocently and sweetly,
"Perhaps, if I'm interested enough. And if you earn it." Yinying responded,
"Then let us think out the possible solutions to our current predicament." Aviana gestured and the two began thinking up ideas.

After a while of growing and thinking the two still came up short with solutions.
"I've got nothing so far. How about you?" Yinying pat her on the back only to notice how wet it was, disgusted he wiped his hand on her belly,
"I'm still a bit woozy from our... "Playtime" so I can't come up with anything." She sighed annoyed with herself,
"That's okay, you always were that emotional while we did these kinds of things." He lifted his gasmask and gave her a little peck on the cheek causing another embarrassed blush to form.
"Thank you... but that doesn't help our current situation right now." She gestured to her stomach which was growing at a stupendous rate. As she sadly sighed once more an idea suddenly popped into her head,
"Do you think my solar power could counteract the love power that's causing me to swell?" She asked him,
"Well, it's the only choice we've got here so... here goes." He hopped down and opened up a hole to reveal the skylight to see that it was noon. As the sunbeams hit Aviana's naked body she could feel herself relax as the stress melted away. She could feel herself fill up with energy and used it all to focus on stopping her spontaneous inflation. Slowly she could feel her stomach surely slowing its growth until eventually, she stopped. She towered over twenty feet now and her breasts and bottom were now easily several feet large. She felt Yinying climbing back on top of her laying down next to her,
"Glad that's over, how do we feel?" The clone asked his lover,
"Couldn't be better, I feel full of warmth and delicious treats. So... relax- OH GOD HERE WE GO AGAIN!" Yinying dropped the towel once more and began making love to her once more.

When Yinying was visibly worn out he collapsed next to her and decided to spend the rest of the time simply talking,
"Phew, okay, I'm done here. Now, would you like to talk about anything?" He laid down next to his lover,
"I wanted to talk about this strange new power I have, being able to absorb energy from our love, I need to learn to control so something like this doesn't happen again," Aviana answered,
"Most likely, would you like me to help you?" The clone happily asked,
"Unfortunately, I'm going to have to say no." The harpy choked on tears,
"Why not?" He questioned concerned, "This is my personal journey on having to control this ability to absorb love, not yours. I want to find out the hidden meanings behind love. Perhaps your personal journey will involve something else. But for now, all we can do is spend the remaining time we have together before I have to take this long journey." Aviana explained,
"How long do you expect to be gone?" He too was becoming distraught,

“Maybe a couple of years at least. Only time will tell.” She snuggled his shoulder,
“Then let us relish in these few days we have left together.” The two pull their headwear off
and began making out.

As the week went on Aviana slowly went back down to her normal size and was good as
new. The final preparations were made and the two were at the front door staring at each
other forlornly,

“Well... I guess it’s time for me to head out now.” Aviana sighed,

“Just promise me that we’ll see each other again no matter what.” Yinying stared at her with
eyes of sorrow,

“Yes, we will my love. I also promise to send you letters, try to respond to as many of them as
possible. Goodbye for now.” The two had one more passionate kiss before Aviana turned
around and began her great journey. Yinying simply watched as she slowly made her way
through the forest trail and disappeared from sight. Yinying sighed and said to himself,
“It’s going to be real boring around here without her...” He took one more look to see if he
could catch a glimpse of her before closing the door.
