

Rianna

Irbisgreif

Rianna the gryph-hen had very long legs,
Though she preferred to keep them skyward.
That was the best way to get full of eggs
When a musky, thick gryph-cock was offered.

She never did bother to get the male's name. 5
As her walls clenched, it just didn't matter.
She'd wail to the sky as that twitching cock came,
And flooded her with sticky cum splatter.

And thus did Rianna live out her long life
Flowing from one orgasm to the next. 10
She never did become any aerie-stud's wife
Though every male got to stay in her nest.

Rianna lived happy and there's naught to dislike
About the gryph known far and wide as "Town Bike."
