

KNOCK KNOCK KNOCK

the loud sound of someone pounding at the door caused the small gray mouse boy to jump off his couch and hurriedly make his way to the door.

He swung the door open excitedly almost slamming it into the wall. *“Michael! there you are~”*

The door opened to reveal a slightly annoyed looking horse man. He was 6 and a half feet tall, built like a tank, he had luscious brown fur that gleamed in the sun, and a bulge that could make your mouth water.

“So what was the super duper important thing you needed me over here for David?” Michael said while staring down at the effeminate mouse who was clad in only a tight pair of shorts that hid nothing.

David grabbed his hunky acquaintance and dragged him inside while slamming the door shut behind them. *“You will not believe what I stumbled across today~”* he said excitedly.

“Well, what did you find?” Michael asked curiously.

“Just ooone moment~” David replied as he escorted Michael back to his couch.

The mouse boy motioned for the horse to sit on the center of the couch. *“Sit right here, I’ll be right back!”*

David almost sprinted out of the room. After a few seconds some rummaging could be heard when David came back into the room carrying a camera, a tripod, and a small bottle of pills. He wasted no time starting to set the tripod and camera up so that it was pointed at the couch.

“Wanna fill me in?” Michael asked still confused.

David started excitedly shaking the small bottle of pills *“Lookie what I found~”*

“What? is that some sort of Viagra or something?” Michael said.

“Hehe, clooose~ they DO have some similar effects, but these are growth pills” David said as he hit record on the camera.

Michael blushed slightly when he saw the red recording light of the camera turn on. *“Wait as in, like, making my cock huge?”*

David chuckled softly while reading the contents of the label. it read “recommended dosage: 2 pills per session.”. He then opened the bottle and poured five pills into his hand. *“that seems good~”*

“So where did you manage to get these?” Michael asked while he watched his cute mousey friend saunter over to him.

David reached out and handed the pills to Michael *“Does it really matter? I’ve been waiting so long to do this~”*

“Heh, I guess not, though do we have to film this?” Michael said as he looked down at the pills in his hand.

“We don’t have to film it if it makes you feel uncomfortable, but I have a feeling I’m going to want to be able to watch this over and over for the rest of my life~” David said as he positioned himself behind the camera.

“If you want it that much I’m fine.” Michael then raised his hand to his mouth and swallowed all 5 pills at once.

“You should probably take off your pants and any undergarments you have on, don’t want to hulk out through them.” David said chuckling softly.

"oh, right!" Michael said as he got off the couch and quickly undressed himself, kicking his pants off to the side as he sat back down. His thick cock exposed now, soft but still massive and draped over his large testicles.

"I never get tired of that sight~" David said as he licked his lips.

"Sooo... what do I do now? just wait?" Michael said as he moved a hand to slightly cover his crotch, a bit embarrassed by being filmed.

"The bottle says they can take a bit to start working, though it also says they start to take affect faster if you're aroused." David said.

Michael used the hand he was covering himself to slowly grip his soft shaft and began massaging it gently, slowly stroking it as it started to stiffen. *"You know I think this would go a lot smoother if I wasn't the only naked one~"*

David reached his hands down to his shorts and pulled them down until his own manhood was exposed to the fresh air. It bounced free when released from the cloth confines, already rock hard from the excitement of what was to come. *"More than happy to oblige hot stuff~"*

Michael's cock throbbed and could stand up on its own when he saw the cute mouse's erect shaft bounce into view. *"Much better~ althouuuugh I bet they would work even FASTER if I had someone to assist me~"* Michael said while eyeing David.

David giggled softly as he made sure the camera was stable before sauntering over towards the couch. He softly sat down next to the huge horse as he leaned in and placed his soft furred hand on the horse's quickly hardening shaft. *"like this~?"*

Michael leaned his head back and moaned softly as the warm soft hand gently began stroking his nearly rock hard cock. *"Aaaah~ it's a start."* he moaned out.

"Well I guess I'll just have to work harder then!" David said jokingly before leaning in and giving the enticing cocktip a loving kiss. Pressing his lips tightly against it before sliding his tongue out and twirling it around the tip then flicking it across the slit.

Michael's cock was now harder than ever before as it stood straight up, standing at nearly 2 feet long and 5 inches thick. *"Aah~ fuck, it's not getting any harder than that~ sh-should those pills be kicking in yet?"*

David gave the tasty cock one more quick peck before sitting back up. *"I just can't help myself around it~ Although I think it's gonna take a little longer, need me to slow down?"*

"N-no, but you haven't given my sac any love today~" Michael said.

David gasped, "you're right! I'm so sorry I'll have to make up for this!"

David quickly got off the couch and knelt down between the horse's muscular legs. He then placed his hands on Michael's thighs and spread them giving him better access to the delicious treats. He then leaned in and began lovingly lapping at them, sliding his eager tongue over every inch of the thick furred orbs resting on his couch. He kissed the left one before sucking tightly on it and pulling back before letting it fall back down as it popped free of his mouth.

"F-fuck! aah~ you're so good at that~" Michael said, barely able to contain his excitement as a bead of pre-cum started to form at his tip. He started to feel a warmth spreading throughout his crotch, at first he didn't notice it too much, but after a couple seconds he started feeling an intense pleasure as he could feel his cock and balls both starting to get bigger.

David opened his eyes wide when he suddenly felt the tasty sac pressing tighter and tighter against his

face. Once he pulled back he could easily see the sight of his dreams, the delicious set of privates before him were growing at a noticeable rate, Michael's cock growing to 3 feet and 8 inches after a couple seconds and still growing. Michael just leaned his head back and closed his eyes unable to think of anything other than the intense pleasure coursing through his body at the moment. Meanwhile David couldn't hold back any longer as he stood up and hugged his body tightly against the growing cock, his own rock hard shaft pressing tightly against the growing sac. The massive cockhead was resting against David's cheek as he lovingly nuzzled it as it slowly continued to grow larger and larger, all the while leaking copious amounts of pre.

"*Aaahn~*" is all Michael could manage to moan out as his whole body trembled and his orgasm hit him immediately spraying David in the face with a massive load of cum, knocking David back slightly as it continued to spray hitting the ceiling and splattering all over the place, including all over Michael. Michael had to adjust himself and slide forward slightly as his massive orbs now the size of bowling balls had to be hung over the side of the couch.

"*it's all I've ever dreamed~!*" David excitedly said as he licked the cum around his lips. He quickly dove back in gripping the now 4 foot cock as it's stream of cum finally slowed down, a few spurts still spraying directly onto David's face and into his open mouth as he swallowed as much as he could. David couldn't resist as he pressed his face directly against the swelling cock head, locking lips with the cockslit like it was a lover's mouth as it sprayed one last spurt of cum directly into his mouth. He pulled off of it panting heavily only to realize after that massive cumshot it, and the now larger testes were still growing. He Embraced the growing cock once more, rubbing his now cum covered body against the massive cock, his own cock throbbing excitedly and leaking his own pre. Unable to hold back anymore David grips his own cock and begins stroking it rapidly while rubbing it against the giant horse cock until his orgasm washes over him, spraying his own seed into the mess of horse seed covering the both of them.

"*H-holy...*" Michael could barely get any words out between the never ending moans and pants as he slowly leaned his head up to look at his now monstrous growing cock and the mouse boy that it towered over excitedly stroking himself. He just leaned his head back once more and closed his eyes, not wanting to waste a moment of this bliss.

"*So good~*" Michael panted out as he leaned against the throbbing cock. It seemed to have finally stopped growing and it now stood at nearly five and a half feet tall and one and a half feet thick, it was nearly the same size as David. Michael's sack rested comfortably on the floor as they were now the size of beach balls, and David could feel the churning of massive amounts of cum. David then hugged the massive cock tightly as he sat on the now massive orbs, feeling their warmth against his bare ass and soft sac as he wrapped his legs around the giant throbbing cock, His own cock also still hard as a rock as it pressed tightly against the monster as he reached his hands up around it and began stroking Michael's massive cock against his tiny fluffy body, wanting nothing more than to please this godlike shaft.

"*Ffu-ffuck D-david I can't take much mooore*" Michael moaned out as his massive cock throbbed heavily against the gooey mouse wrestling his cock. Every tiny feeling sending wave after wave of pleasure through his body, the feeling of David's hard cock pressing and rubbing against his, the tight grip of his legs, the pressure on his testicles, the constant excited licking from the mouse's greedy tongue, or the never ending stroking from the mouse's soft arms. His cock was trembling as it began to leak copious amounts of pre again, dripping down and coating the mouse's entire body.

"*Aaah~ ooh fuck Michael~ cum for me!*" The mouse shouted as he buried his face into the throbbing meat and kissed it passionately as his grip tightened up around it as his own orgasm hit him once more and he sprayed his seed against the base of Michael's shaft.

“I-I I’m aaaahn~!” Michael shouted as his cock twitched heavily enough to shake David’s entire body as it erupted like a volcano, firing a massive stream of cum up into the air covering the ceiling once more before splattering down all over the both of them, covering the two of them and the couch in the sticky white goo. David gripped the shaft tightly as he felt the warm treat splatter all over him and looked up while holding his mouth open, hoping to catch as much as he could. Michael’s cock sprayed 5 more massive spurts before starting to slow down, the amount of cum on the both of them so massive it had started made a massive pool around the entire couch area. David gave the cock a few more loving licks before falling backwards off the thick orbs and into the pool of cum below, panting heavily while looking up at his stained ceiling.

“th-thank you Michael~ it was everything I’ve ever dreamed!” David said between pants as he lied blissfully in the cum pool and closed his eyes.

“D-don’t mention it. Anything for a f-friend~ Though umm, when are these supposed to wear off?” Michael said as he regained consciousness and stared at his massive meat.

David’s eyes opened wide *“uuuuuh... wear off?”*
