

Story Comm #160:
“Leaf and Lucy’s Reunion”

As done for **Leafthornton**

(The following is not connected to the Silverscale Arena)

(Art by *StogieGoatArts*)

Normally, the planet of Fichina was covered in so much snow and ice that sunny days at the park felt like a fantasy there. Thanks to the efforts of the planet's scientists, a small patch of land had been domed and terraformed to look like a peaceful park, an artificial light functioning as the sun. It was quite a marvel that the inhabitants loved to go to.

For the rabbit anthro known as Leaf, he was just here to clear his head. The nerdy and somewhat shy one was facing a two-part problem. One that caused him to walk awkwardly, blushing madly if he suspected people were staring at the prominent bulge in his pants.

The first part of his problem was that he was a university student that was trying to deal with a mountain of studies he had to do. For somebody like him, that wouldn't be that bad of a problem. However, it was that time of the year in which he was going into heat.

Instead of focusing on his studies, Leaf couldn't stop thinking about thoughts of sex. Day after day and night after night, he would spend less time with his head in a book and more time wrapping his hand around his cock, furiously masturbating as he tried to make the heat go away.

Thus, he had come to the park to, perhaps, clear his mind of those distracting thoughts. The rabbit anthro had already brought with him one of his books to study with. He sat at the nearest bench, trying to use his book to hide that increasing erection.

It was times like this that made Leaf wish he had a girlfriend. Alas, his luck with the ladies hadn't been that good recently. He was always afraid to make the first move, fearing rejection or just his efforts causing him to fumble the bag in terms of socializing.

Luck would be on his side, though, as he wouldn't be the only one trying to 'beat the heat', as one might put it.

"Maybe nobody will see me if I do my thing behind those trees?" A feminine voice caught the long ears of Leaf. Adjusting his glasses, he swore that voice sounded familiar. His answer came when he got a better look at the woman walking next to him.

"Lucy?"

"Oh! Leaf! It's been too long!" The pink-furred hare anthro exclaimed. The university teacher quickly moved towards him, her bright smile lifting up the man's spirit's considerably. "How have things been?"

"Well, it hasn't been easy, but I think I'm one step closer to my job as a Lylat System scientist." Leaf replied, once more using his book to hide his erection. It was only getting bigger in the presence of his friend. "How about you? How's teaching astrophysics?"

Lucy sat next to him, causing his blush to increase. He noticed, though, that her own blush was even brighter. Not to mention, she was crossing her legs, a damp spot on her pants in the space between said legs. "It's quite rewarding. It's just a shame that I haven't had as much time to spend with you."

"Same." Leaf admitted. Their differing career choices had led to many months of separation, but they always did their best to make time for each-other.

As they chatted away, both couldn't deny that their bodies were becoming more and more affected by the heat, no matter how many times they dodged any questions relating to it.

For Leaf, his boner was tenting his pants so much that he couldn't hide it anymore. For Lucy, her legs just kept crossing, with her even lightly shaking in her seat in an effort to get herself off early.

"So...is everything really alright?" Leaf finally asked the question that was on his mind, as well as hers.

Letting out a deep sigh, the anthro hare shook her head. "It's that time of year. I'm not the only one feeling it, am I?" She looked to that boner again, her hand almost reaching to touch around the tented area of the pants.

"Maybe we could help each-other take care of it?" His mind racing, Leaf's suggestion came quickly, not giving him time to realize what he was saying. "I-I-I-I mean-!"

"Wait! That's...actually a good idea." Lucy admitted, biting her lip as her ears moved down a little. She twirled a lock of her hair, crossing her legs further. "To be honest, I've been thinking about asking you out one day, but I never imagined the day I went into heat would be that time."

"It's fine. I'm not so good with making the first move, either." Leaf admitted, scooting closer to his friend. While both knew that this whole thing would probably be hampered by their conflicting schedules, they decided that didn't matter right now.

Both wanted to feel good and this was one of those rare opportunities to finally feel that way. Thus, their faces moved closer to each-other and the inevitable kiss ensued.

What started out as slow and awkward quickly became far more passionate, their humming moans getting slightly louder as they embraced. Leaf's hands moved across his partner's back, while their tongues danced with each-other. Lucy leaned back, letting the other top her on the bench as they continued their makeout.

Removing themselves for the sake of taking in some oxygen, both realized that their hands were trying to pull off each-other's clothes. "Out here in public? How...daring." Lucy blushed, a smile growing on her face.

"You-you-you really don't mind?" Leaf stammered, his small tail flicking around as he realized where this was going. "Aren't you worried about somebody catching us?"

Twiddling her fingers, the anthro hare looked away a bit. "It's a fantasy of mine. I'd love to at least try it once. There's something about being caught that adds a thrill to the whole thing, don't you think?"

The more Leaf thought about that prospect, the more he felt his cock become painfully erect. Before long, his hands were already moving to his belt, undoing it, and allowing himself to pull off his pants. His throbbing member was finally revealed, causing Lucy to gasp. "I know, it's not that big--"

“Are you joking? This is perfect!” She exclaimed. “It’s so big and...and...” She found herself wrapping her hand around the cock, causing her partner to let out a low moan as she began to stroke. Some cum was already spurting out, covering her cheek. “Mmmmn...” She hummed when she scraped that pre-cum off and licked around it.

Doing his best not to cum from the mere sight of that, Leaf leaned back, giving his partner some space to slowly strip. Her breasts were the first thing to be revealed, the breeze feeling wonderful against them. “You’re so beautiful.” Leaf breathed.

Once she had kicked off her pants, Lucy leaned in to adjust her friend’s glasses, giggling. “And you’re so adorable.” With that, she looked down at that cock, her pussy leaking fem-cum onto the bench and grass. Leaning down on it, she kissed the tip before wrapping her lips around the thick, causing her friend to let out another moan.

Leaf still did his best to look around to see if anybody was coming. A few times, there were some that passed by, but they didn’t hear the sound of Lucy sucking that cock in a slightly amateurish way. Thus, they didn’t pay the duo any heed.

The anthro rabbit found himself relaxing more, his balls churning as that cock was massaged by those lips and that tongue. Lucy was trying to fit the entire thing into her mouth, her throat almost wrapping around the thing while the cock spurted some pre-cum into her gullet.

“Fuuuck...I never imagined getting blown in public...would feel this good!” Leaf forgot to adjust his glasses as he bucked his hips into that blowjob a bit more, nearly making her efforts more sloppy. That just put a smile to her face, loving that she was making her friend quite eager. Her ass swayed in the air, her pussy desiring to have something in it soon.

Leaf noticed this, patting her on the ass to make her stop. “What is it?” She asked, pre-cum dripping down her lip a bit.

“I’m loving how you’re doing that, but I wanna save my cum for a special place.” He gestured to her pussy, causing it to slightly spasm as arousal hit her body like an anvil.

Her eye shimmering with desire, Lucy wasted no time sitting back up, before moving her ass to rub against that hard cock. “I can tell you’re trying not to cum. I’m really that hot to you, aren’t I?”

“Yes! Yes, you are!” Leaf felt great admitting his feelings, wrapping his hands around her waist as he planted some kisses against her back. “To be honest, I never thought you saw me as more than a friend until now!”

“How could I not? You’re adorable and smart! Not to mention...” Slowly, Lucy hovered her pussy over that cock, coating it in the dripping fem-cum. “...you’re about to give me something amazing!” Steeling herself, the anthro hare slammed her pussy onto the dick, causing Leaf to nearly unload his entire supply when he felt the warmth that resulted from that.

Wrapping his arms around his partner's waist, the anthro rabbit did his best to go slow at first, but Lucy was already thrusting against his cock. "This isn't your first time?" He asked, his cock feeling wrapped around nicely by the fleshy walls of that vaginal tunnel.

"I've had practice with toys!" She replied, panting as she looked down. "But none of the feel as good as the real thing! Now, bounce me! Bounce me on your cock before somebody sees us!"

"Heh. You're HOPING somebody sees us, aren't you?" Leaf's confidence was growing as this continued, his cock bucking into that pussy as he relished the sensations.

His only reply was a confirmatory moan, her smile indicating that she, indeed, didn't mind entertaining that possibility. For now, he continued to thrust his cock into her as deep as he could. Leaf's balls churned loudly, a clear desire to cum bubbling up within the whole of the nerd.

Lucy was already cumming heavily around that cock, slathering it in fem-cum as she rode atop that cock. Moving her hands to rest atop those arms around her waist, she gave several more gasping moans, imagining the looks on any bystanders that might have been watching.

"I can't...stop cumming!" She exclaimed. "I love this so much! Please, cum inside me! I wanna feel your bunny batter!"

Despite knowing this would probably impregnate her, Leaf didn't mind fulfilling her wish. In fact, hearing that made him thrust into her faster. His toe-claws dug into the ground as he bucked his hips harder into that vaginal entrance. He swore he was thrusting against her womb when this happened, causing his cock to throb harder and harder and...

"HERE IT COMES!" Leaf briefly clenched his jaw before his eyes rolled up into his head, his tongue lolling out as he finally pumped in his pent-up supply. The cum flooded all around that womb, the chances of Lucy being impregnated becoming inevitable.

Speaking of the anthro hare, she was moaning heavily, rubbing around her belly as some of that cum leaked past that cock. "I'm so full. It feels so amazing!" She said with clear delight. "As soon as I catch my breath...I wanna go again!"

"R-really? I can do that!" Leaf said with gusto, hugging her closer as he kissed around her neck. That only made her shudder with a pleased smile, her pussy spasming a bit around that throbbing cock inside of her. That caused more fem-cum to cover the dick, helping it to become erect faster.

Given that both were lagomorph anthros, the combined power of the heat that was within them, as well as their budding romance and shared exhibitionism fetish, ensured that their next love-making session wouldn't be the last one. They were literally going to fuck like rabbits.

They'd go at it several more times, always risking the possibility of somebody walking in their lovemaking session. There were many close calls and they absolutely loved that. In fact, once both anthro lagomorphs were utterly spent, they made a promise to do this again sometime!

Lucy even suggested doing this the very next day. A prospect that made Leaf's heart soar with joy.

THE END!
