

Vore Thursday Quickie: After Class

"And that is why you must always be aware if your prey is poisonous or..." Ookitsu was interrupted by the bell going off, the university students stood up and started to walk out. "...not. Make sure you have your papers ready for Monday on your assignment. Remember this could save your life as you need to know what to do in such a situation." Looking around he saw Nommz was asleep at his desk again, the dragonmutt slacking off like usual. Walking over to the sleeping student's desk, Ookitsu picked up a couple of the books then dropped them. Nommz woke up, muttering something before turning his attention to his professor standing before him. "Class is over for the day Nommz and your grades are dropping significantly at this rate. Come see me in my office for extra credit possibilities."

Was the third time this week Nommz had fallen asleep in Vore 101. He was having a hard time staying awake with it being his last class in the day and the large workload he had in the past couple weeks. Watching his professor walk off through the door to the left of the chalkboard, Nommz slowly got up and made his way into the office. Even with the couple hour nap he just took, he still felt completely exhausted. The office was rather plain and didn't have much in terms of furniture or stuff on the walls. Besides a the desk, a couple filing cabinets, a couple chairs in front of the desk, a couch and a bookcase it was empty. Ookitsu leaned back in the chair, resting his head on a paw with his nine tails resting on either side of him, tail tips twitching slightly. "Sir, I swear I won't fall asleep again and will do anything for you to not fail or throw me out of class." Nommz said a bit nervously, thinking about how unprepared he was for the midterm test.

Leaning forward, Ookitsu rested his elbows on the desk, holding his paw together as he spoke. "I'm glad you feel that way, because you see there is something I need you to take care of." Standing up the kitsune quickly took off his pants and underwear, letting them fall to the floor and kicked them off to the side. His large, heavy, white furred balls and hefty sheath on full display to his student. Letting the dragonmutt stare at them for a moment before sitting back down in his chair, reaching down to idly play with his balls. "There will be no more talking from you my student, either you go underneath my desk and do what you're told, or you leave this office now and never return to my class."

Nommz gulped knowing he needed this class to graduate, and by leaving he'd have to give up school or try and get into another. Walking towards the desk hesitantly as he remembered the stories some of the other students liked to tell about the professor. Often telling how many of his students disappearing for a while after being called away. With a sigh, he went to get down on his knees to crawl under the desk, only to get interrupted by his professor speaking. "You won't be needing your clothes for this." A bit embarrassed by

the fact that he'd have to strip down, Nommz slowly took off his clothes showing off his slightly chubby body to his professor though he did his best to cover up his bits with his tail.

Getting on his knees, he crawled underneath the large wooden desk, barely able to get himself turned around as the chair slid in and got a face full of the fuzzy orbs. "Get to work and we'll see about changing some of these grades to something that passes." Pulling his snout away from the musky orbs, Nommz looks up slightly only able to see that plump sheath with the tip of that ebony shaft poking out and a bit of the stomach. Raising his paws to those large orbs, he rubbed over them barely able to wrap his paws around. Licking along the sheath and the bit of shaft already free, he watched as the shaft quickly emerged from it's hiding place. Tasting dried up pre and cum in the kitsune's crotch fur, it made him relax a bit as he enjoyed the taste. A bit hesitant to continue as he felt this was wrong, yet another part of him felt excited by this course of events.

Opening a drawer, Ookitsu took out the papers from the last assignment to start grading them. Smiling a bit to himself as he felt Nommz's muzzle take in his cock, holding back any sounds and resisting the temptation of thrusting into the hot maw. A bit surprised as he felt his student take in most of his shaft, not a task most were able to accomplish. Hearing some movement and sounds outside his door, Ookitsu brought a tailmaw up behind Nommz's head and took the back of it along most of the muzzle inside the black slimy flesh. Keeping the dragonmutt in place as well as to muffle any sounds he might make.

Sliding in a bit more before the other student of his walked in, the space beneath the desk becoming a bit cramped for dragonmutt underneath. The green colored collie Denzy shouted as he walked in, "Sensei!" Ookitsu rolled his eyes a bit still not sure why he called him that but it amused him nonetheless. "I had a question about the assignment."

There was little Nommz could hear with the tailmaw covering his head. The uncomfortableness the position he was in made him want to try and wiggle free of his professor's grip. A loud thud went off as his tail smacked up against the desk, feeling his head get squeezed tightly by the tailmaw in response. This made him want to pull away but in his current position he would only end up going deeper into that tailmaw. He finally at least got some rewarded for his efforts, feeling that first drop of pre come out of the tip of the large shaft, the salty liquid sticking to his tongue.

Luckily this wasn't the first time Ookitsu had done such with a student, or else he may of had a harder time controlling himself with how great Nommz's maw felt around his dick. The questions Denzy asked were all easy enough to answer, though he wished they'd pay more attention in class so he wouldn't have to repeat himself so much. Fortunately he didn't have as many questions as some other students. Letting out a sigh of relief once

Denzy left and he was once more alone with Nommz.

Sliding back a bit, he released the dragonmutt's head from his tailmaw and lowered a paw down to rub over the saliva coated face, urging him to continue. Feeling Nommz start to relax he let out a small moan, quite enjoying the feeling of those paws rubbing over his large sack and mouth working the shaft. "Good boy at this rate you won't flunk out, and after I might even offer you something to boot you up to at least a B." Though that grade wouldn't come without a price, he was the Vore professor after all and only an essay on a demonstration could possibly get him that grade.

Nommz was determined at this point to get his grade backup, and the offer sounded very tempting. The large shaft stretch out his throat, taking it in up to the knot, despite how much he tried he couldn't take that massive knot into his jaws. This didn't seem to matter at least as his professor was enjoying himself and even started to get a bit more into it. Rolling his hips up into Nommz's jaws, slowly fucking that hot maw and making him work for his grade. The pre continued to flow out, coating the inside of his throat with the thick and slightly sticky fluid. Which seemed to just make it all the easier for that shaft to go in and out of it.

Unable to hold back and eager to start with his students next task, Ookitsu reached down and grabbed hold of those curved horns. Using them like handle bars as he thrustured into the jaws a couple more times before holding the dragonmutt in that position as he hit his climax. The first rope of cum that shot out was much larger than Nommz anticipated, feeling like he swallowed a large glass of it all at once. Next few to follow weren't nearly as large but could feel his stomach fill with the thick, salty cum. It seemed to last forever in Nommz's head as he was forced to swallow all that his professor was pumping out.

Once Ookitsu's orgasm came to a close, he pulled out of Nommz's maw, letting the last couple spurts of cum land on the dragonmutt's face. A mixed strand of saliva, cum and pre hung between the shaft and Nommz's muzzle as the two panted a little and relaxed in the high of the orgasm. "Now... it's time for your new assignment Nommz, be sure to take careful note of what is happening and the overall experience. I expect the paper to be on my desk come monday along with the paper for today's lesson."

Before Nommz could reply, Ookitsu grabbed the back of the student's head with the tailmaw once more. Pushing the dragonmutt's snout up against his dick, feeling the tip flare open slightly as he started to push Nommz inside. The kitsune was glad the horns were placed and shaped like they are, or it may of made it difficult to pull him in this way. Slowly pushing on the head, making sure to take care with the horns until the slit was around his prey's neck.

At first he was in disbelief of what was happening to him, sure he had heard stories but he didn't actually believe that his professor ate his students. Whimpering a bit as the ebony flesh squeezed around his head, while the pre continue to flow around him. Pressing his paws up against his professor's thighs, he pushed trying to get out despite the fact that deep down he rather enjoyed the thought. Barely able to keep his eyes open inside the pitch black space, he saw a small spark of light that was followed up with a jolt of electrical energy going through him.

Feeling Nommz relax momentarily with that jolt, Ookitsu reached down to hold his student's arms against the now slightly damp with pre sides as his cock slowly took in the shoulders. Groaning a bit, feeling his cock work on stretching out around his prey with the help of his paws feeding the dragonmutt into his shaft. Normally he might of continued to shock his prey in this type of situation to reduce the noise as much as possible, but this was an assignment after all and he couldn't possibly let Nommz fail because he went unconscious so soon.

Wrapping his tails around Nommz some to help ease his student turned prey into his shaft as he leaned back and relaxed. The dragonmutt started to wiggle once more as he recovered from the jolt, hearing muffled cries coming from within. Sliding his chair back a bit, so he could slouch some, letting his balls hang off the edge of the chair. Allowing him to lift Nommz once he was in far enough to let gravity help pull the smooth scaled prey in deeper.

Inside Nommz could feel shaft pulse around him as it tugged his body deeper inside, with the tails helping pull his body along. His weak struggling seemed to do nothing as his professor continued about this pace. Pre getting stuck in his nose caused him to twitch his head about as he tried to get it out only to get more inside, making the smell stronger. The cock grew in size as he felt it start to go over his belly yet his head was still inside the shaft.

Time slowed as his now throbbing shaft got pulled inside the large kitsune's own and his body started to go vertical along with the cock. Head pressing against something tight before slipping through and entering the kitsune's orbs. What little air inside was hotter than he was used to and heavy with musk making it hard to breath. With the hard parts of his body inside the shaft, it made quick work of the legs and tail. Nommz had to hold his breath as he was submerged in the pool of cum below, unable to bring his head back above it until his legs started to join him.

Rubbing along the sides of his shaft, Ookitsu watched as his prey disappeared inside him. The legs and tail flailing about until it became almost impossible for him to move them. Bringing a paw up from the side of his shaft to the footpaws poking outside,

Ookitsu rubbed along the soft pre covered pads before pushing them in, watching the tail get slurped in soon after. "All mine, for now." Ookitsu said with a toothy grin, rubbing the remaining bulge of his student down into his left nut. Lifting his left footpaw, he rubbed it along the bulge inside, feeling Nommz squirm at the touch.

Nommz could hear the sack start to churn around him as the cum stuck to his form. Pawing at the flesh holding him as he whimpered wanting out though with each passing second he accepted his fate more and more. Feeling what little fur he had on his body be the first to go as it dissolved away into the kitsune's cum. Having to watch as the cum slowly filled more of the chamber that held him and his strength faded away as his body grew softer.

Ookitsu was rather happy the dragonmutt was in his last class of the day or else he'd have to teach sitting down all day again. Looking at his desk he had a lot of papers to grade but that could wait for now, he was doing 'research' after all. Feeling the bugles in his left nut slowly fade away as his prey was turned into more of his cum. His footpaw roamed over his left nut feeling what little form the dragonmutt turned cum had left. Occasionally feeling what a paw weakly press against the fleshy walls of his sack until there was nothing.

Over the next hour his balls started to even out in size and he felt good about how things turned out in the end. Letting out a yawn Ookitsu stood up, feeling his sack sag between his legs with the cum sloshing around inside. The large orbs slowly working on shrinking down as the cum inside compressed while the nutrients from Nommz fed his body. Barely able to sit on the couch he had in the corner before Denzy barged back in. "Sen... sensei..." The green collie eyed the large orbs muttering some gibberish before passing out. Shrugging to himself as he figured he'd be gone before the student would wake up and there would likely be a new story to go around campus.
