

[Scaper] A young Munchlax [Remington], wandering the forest, noticed a Riolu and became rather interested in it. He had been feeling a bit hungry; not in his stomach but in his balls. He desired someone to feed to them and figured this Riolu would be perfect.

[auraspark] On the middle of a forest, there was a little Riolu [Spike] who was searching for some berries to eat for lunch. While searching he finds an Munchlax (very unusual since they don't usually live in the forest). Wondering if the pokemon got lost in the dense maze of trees and leaves, he goes to ask what he is doing here.

[Scaper] Remy smiled, seeing the Riolu walk right up to him. "Oooh, I'm just wandering around, looking for snacks." He said. His cock was becoming erect at the thought of feeding, though Remy didn't even care

[auraspark] Spike Psydrag stood there, astonished with the Munchlax cock starting to get hard because he knew this kind of situation. "Hehe maybe I could help you, what kind of snacks do you prefer?"

[Scaper] Remy grinned from ear to ear mischievously. "Well, I'll tell ya what. How good of a hunter are you?"

[auraspark] Spike Psydrag looks at the berry he found and tries to hide it on his back, trying not to show that all what he search for food is that. "Eh.....I am kinda good I suppose?"

[Scaper] "Good." Remy walked over to a tree and sat down, spreading his legs. "I was gonna nom you earlier, but if you can go out and get me some Pokemon to eat, then I won't. Don't try to run, either, cause I'll know. Trust me."

[auraspark] Scared with the pokemon threat, runs inside of the forest and tries to find something for the starving hunter. "What I gonna do. If I don't find something for him, it will be my doom." While thinking on that, he finds a while ratata. Without hesitation he throws an aura sphere and knocks that rat pokemon, leaving him unconscious. He grabs the pokemon and goes back to the place where the Munchlax was waiting, hoping he didn't lose his patience.

[Scaper] Remy smiles. "You panicked, didn't you?" He asked.

[auraspark] Spike Psydrag smiled with some fear. "OH no no no no.....Anyway, here, a Ratata just for you"

[Scaper] Remy smiles and cups his hand. A ball of pink energy appears and floats out of his hand, then attaches to the Rattata's head. The ball levitates the Rattata over to Remington and down to his cock. The Rattata is pushed against his cockslit until it starts to part and devours first the head, then the whole body.

[auraspark] Spike Psydrag: Spike Psydrag looked at the show the pokemon was giving to him. That was something pokemon usually don't see everyday, and was.....rather exciting too. The little riolu didn't even noticed that the tip of his cock slipped out of his sheath.

[Scaper] Remy sighed in bliss as the Rattata was gobbled up by his cock - with no effort on his part - and sucked into his balls. His sac expanded to a delightfully squishy silhouette of a Rattata, which squirmed a little before ceasing movement. "The best part is when they squirm around in there. OOOOOOH... helps with digestion..." Remy looked at Spike and noticed his member. "Eheh... gives ya a boner, does it?"

[auraspark] Spike Psydrag eeps and tries to hide his embarrassment from the cock vore hunter. "Eh.....NO, that is ridiculous.....isn't it?"

[Scaper] "Not at all. Cock vore is some of the BEST vore." Remy said. "Tell ya what, once this guy and any others that you find are digested, I'll give the cum to ya. Now, go get me some more Pokes." Remy demanded, smugly.

[auraspark] Spike Psydrag liked that offer the Munchlax gave, encouraging him to go and find another prey. After some minutes walking around the forest, he comes back with an abra. The funny thing is that this abra wasn't so hard to catch. In fact, it's still sleeping.

[Scaper] Remy smirked. "Oh the irony." He said. Using the same method as before, he stuffed this Pokemon into his cock and sent it down. His shaft bulged huge as the Abra was swallowed up. When it was eaten, his shaft remained an extra few inches thick and at least a foot long, matching the girth of his ballsac

[Scaper] "Keep hunting, good friend. I'm still starving down here." Remy said, tapping his gurgling balls

[auraspark] Spike Psydrag goes again to search for another prey. This took more time than the other 2 searches. But after 10 minutes he came back with a pidgeot.....how was in the middle of voring a caterpie. His cock already fully hard and waiting to see another show. X3

[Scaper] Remy happily accepted his offering and began to devour this one as well. Remy's cock started to ooze pre as the Pidgeot slipped up his shaft and, once again, created a very impressive bulge in him that once again caused his shaft to permanently grow. Remy moaned and rubbed himself a little as the bulge got closer and closer to his body. Finally the Pidgeot joined the other two Pokemon, and it too began to digest into cum. By now the first two were already semen. "OOOoh yes... So much cum... so good..."

[auraspark] Spike Psydrag drools a little looking at the well endowed balls connected to that gorgeous expanding cock. His cock leaks some pre with the arousal. He goes back inside the forest. This time he come back slowly, pulling a small kind of trolley he made with a mountaineer

of caterpies, ekans, and one or two quilavas. "there you go, huff".

[Scaper] "Good lords man! You did your job and more!" Pleased, Remy takes a bunch of the Pokemon at a time and starts devouring them all. There is never a moment of relief for his cock, as after one bulge starts to go down another group of Pokemon are forced to take its place. Remy's balls groan and widen more and more as they are forced to ingest more Pokemon. His cock, too, expands even more, allowing Remy to devour even more Pokemon at once, which in turn made him grow all the faster. In the end, it took him less than five minutes to devour the whole pile. His balls were at least a yard wide, and his cock a foot thick and many feet long. "Aaahh... I think that It's time this load was let out. You did your job well." Remy told the Riolu. "What's your name?"

[auraspark] Spike Psydrag: "I'm spike" He came like a while ago while looking the hunter voring all what he gave. Looking at the new monstrous size of the pokemon, he started to drool a lot. Getting a little impatient and already wanting to taste at list that never ending leak of pre.

[Scaper] Remy smiled. "I'm Remy. Feel free to do with me as you please." Remy laid back, his cock and balls throbbing in front of him.

[auraspoke] Spike Psydrag started to climb that mountain of balls and flesh with his cock still har and throbing. It was quite hard since the pokemon own pre made it really slippery. But when he reached the timp of it, he didn't think twice and started to gulp down that pre he wanted to taste so bad for quite some time.

[Scaper] Remington: Remy moaned in approval as his tongue lapped across his cock, releasing more pre for the Riolu to drink up. As much as his cock wanted to devour the Riolu right then and there, Remy resisted, wanting to keep his end of their deal.

[auraspark] Spike Psydrag gulped more and more, his cock throbbing hard but not as hard as the mounting he was standing. That pre was tasty and very addicitive for him. Wanting to drink more, he shoved only his head inside the dickhole and started to drink more of that nectar. His belly started to swell with all that pre.

[Scaper] Remy had a hard time resisting the swallowing motion that his cock always made whenever something stuck its head into him - he remembered a time when he accidentally swallowed a stick through his cock - but never-the-less he was enjoying the treatment the Riolu was giving him. It urged his pleasure on, causing him to leak even more pre. In reality, it was coming out in a constant flow now. His balls, heavily swollen from so much food, seemed to swell even more from arousal. Pent up arousal built up within in the form of even more semen, and his cock grew too of course.

[auraspoke] Spike Psydrag felt the cock going bigger as his mouth was getting more of that tasty pre. Taking out his head for a moment of air, he licks all his own face, not wanting to waste any

of that sweet juice. Seeing that you were making funny faces like trying to resist something, he remembers that you are a cock vorer. "Oh, so you are holding the urge to vore me? Does that means you are still hungry?" The little pokemon say noticing how he can actually see the sea on the top of your magestyc throbbing member.

[Scaper] Remy nodded. "I can eat a lot... and never be satisfied..." He groaned. His cock suddenly splurted a huge glob of pre at a great velocity, enough to knock Spike off of Remy.

[auraspark] Spike Psydrag grins with the answer. "Ok then." Standing up with his eyes looking towards the sea, the blue dog raises his paws. A strange blue aura surrounds the little pokemon and his eyes begins to shine with the same color. Meanwhile on the sea, the water started to rise and form four bulges in the middle of the giant ocean. From this bulges came out 4 big Wailords floating in the middle of the air thanks to the psychic of the especial riolu. He starts to sweat while the giant whales were going closer to the cock vorer who had already a bunch of digested pokemons inside him. But since that didn't satisfy him, the riolu wanted to do this for him. When the Wailords were close enough for the throbbing mini-mountain cock, all of them were put down gently. The sound of hundreds of trees being crushed by the whales could be heard from some miles. After all the effort the pokemon did, he falls from your cock and lands on your balls (thankfully they are quite soft) and after breathing hard he turns his head towards you. "Huff.....there, all.....for.....ya"

[Scaper] Remy was shocked. This Riolu was much more powerful than he had assumed. Those Wailords though... so much mass... so much cum! Remy's balls groaned with need, the desire to ingest and absorb growing more powerful than ever in a long time within Remy. "Gods yes! Stuff them all in me! I need them! They will become cum!" Remy exclaimed, demanding that Spike stuff the four of them into his shaft right now. His member throbbed powerfully, more blood flowing into it and making it bigger in preparation for what was to come.

[auraspark] Spike Psydrag stood up with his legs shaking for the exhaustion he has now for the 'little' thing he did. But he couldn't say no to him and that big hungry member that was growing with not sign of stopping. He summoned his last strength and levitate the 4 whales from the ground. He placed all the wailords in line, one after the other. He placed the face of one of the pokemon that was struggling for freedom on front of your cock tip and waited for the show. This is going to be one of the best cock vores he will see so far, especially since he is standing on your balls. The perfect place to see and kinda feel what you are going to do.

[Scaper] The Wailords were, one at a time, taken into his cock. Remy groaned in the loudest possible manner as his shaft was stretched wider than it had ever been before. It throbbed violently, the whale Pokemon getting slowly sucked further and further down with each destructive twitch of his shaft. His length grew and grew as it was forced to stretch to accommodate his meal. As one Wailord disappeared completely into him, another took its place. As the first one entered his balls, they expanded rapidly. His balls rumbled loudly, beginning a rapid breakdown of the Pokemon into delicious Munchlax semen. First one, then two, three, and

finally all four were sucked into Remy. By the time it was all over, his length was at least a dozen yards thick and at least a quarter of a mile long! His balls were monstrous. Even as the Munchlax sat atop of them, gazing over the world from high atop himself, he couldn't help but moan. He grabbed his friend Spike and kissed him on the lips. "God this is amazing!" he told him

[auraspark] Spike Psydrag panted heavily, exhausted from his labor right now. Suddenly the plates on his arms started to shine and his energy came back, but the plates turned almost completely white in the process. "Huff, I'm better now. By the way.....are you still hungry?"

[Scaper] Remy nodded with an eagerness that was almost corrupt. "What happened to the plates on your arms?" He asked with curiosity, noting that they seemed to change color.

[auraspark] Spike Psydrag looks at his own paws. "Oh! They store magic. They usually converts all lives things that it absorbs into magic." While explaining, one of his plates turns completely white and the other turns blue again. "When I'm all drained. This two things aids me by giving the energy they store. As you can see, one is empty now and the other is full again. That means It can help me once more. Unless I absorb something so the other can be full again."

[Scaper] Remy sort of understood what Spike was explaining, but as long as the Riolu wasn't going to die from lack of energy, Remy was fine with whatever he wanted to do. "I see! Then by all means, feed me till I'm bigger than the ocean!" He exclaimed, genuinely excited for what was to come

[auraspark] Spike Psydrag grins with the impossible idea he got. He teleports to the tip of your cock, trying not to fall with all the strong throbs it was making. "Hey! I got an idea! How about fill you WITH the ocean!" He screamed this rhetoric question to you before using all his power again. The sky begins to get covered by thick clouds and some purple thunders began to fall from the sky and struck against the ground (thankfully that was far, far away from you and him). His body shines with a blue aura again, but this time with more brightness than before. He raises his paw as the water of the ocean began to be raised by the little pokemon. A bunch of Magikarps, Gyarados and more water types pokemon were shocked in confusion. "TAKE IT!" With all his might the water of the ocean started to go inside your cock with an incredible speed, like a firehose trying to fill a public 'pool'

[Scaper] Remy groaned and moaned in bliss and great, great approval. The ocean flooded into his cock, triggering rapid growth. Idol creaking could be heard, his cock was expanding so fast. As the seawater flowed into his balls, it was instantly transformed into cum as it was not living matter and did not require time to be digested. Remy grew higher and higher as more and more of the ocean was absorbed. The seawater visibly shrunk down, though there was still lots of it to go. After an hour, Remy surpassed the continental shelf and sucked up all the water in even the deep ocean. Remy could start to feel the curve of the world around his massive endowments, he was growing so big. Even behind all of this, his growing balls produced cum like they normally would, only proportional to his size. This created ever growing production of semen within him in

addition to his already rapidly increasing supply of cum. Hours passed, and the sea was expended. Remy was huge so as to be above the atmosphere! thankfully though there seemed to be an atmosphere sticking around his worldly endowments. The world cracked eerily under him, his weight a bit too much for it.

[auraspark] Spike Psydrag goes to your cock tip. Looking how it is still leaking pre to non stop. Surprisingly bigger than any other thing this little riolu could have seen and making earthquakes only with his throbbing member. The plates of his arm are all empty now, but he got the perfect way to fill both of his arm at once. He uses telepathy to talk with you since both are too far away from each other. "Hey, my plates are empty, you don't mind use some time to fill them up again?"

[Scaper] Remy heard the Riolu in his mind, though he wasn't too surprised; Riолus and Lucarios, as well as many other Psychics, were highly valued in the Stateran lands for their telepathic communication skills, which they were trained for years to hone and master so they could create entire networks of Psychic link-ups, as well as preventing interference from outside sources as well as espionage into Psychic mind-links. Remy smiled. "Do whatever you like, but I don't think this planet can support my hugeness anymore!" The Munchlax had a thought. "By the way, at some point, would you like to have some cock-food as well?"

[auraspark] Spike Psydrag laughs a little. "Actually, I like more when you are the one eating" After telling you that. He gives a small lick and starts to gulp down all the pre he could get. "Maybe one more shot of your pre will be enough." As his plates slowly begins to change it's color thanks to the pre being absorbed inside the blue pokemon.

[Scaper] Remy didn't even need to think twice to release pre. His shaft bulged out with a huge glob of pre. It got to the tip and burst out like the largest fire hose anyone would have ever seen. For the pre that Spike wasn't able to drink up, it fell into the ocean basin, effectively refilling the sea to some extent. Remy could sense that this was the case and rubbed his shaft a bit in an effort to refill the ocean of the world. Munchlax pre ocean; the thought turned him on.

[auraspark] Spike Psydrag recovers his magic plates after some minutes of 'digestion'. "Ok, I'm back on the game. What else for food....." He could only see a world made of Munchlax balls. So the next food should be....."Hehe you are going to love this." Using his powers, he raised your balls and takes it out from the planet to the vacuum of space. He covered your head with a blue bubble with infinite oxygen so you don't die in the middle of nowhere with a giant pleasure. "What do you think my vore lover. The pressure of the space arouse you a lot?" He laughs a little with his own silly question.

[Scaper] Remy laughed with him. "I think my balls are making more pressure than space could ever hope to make with me." Remy replied. In truth, the vacuum of space was attempting to evenly spread his extreme mass of cum all across the universe, as any matter wanted to do, but thanks to his ballsac's obviously extreme durability, it would not. this vacuum was only

increasing his production. Meanwhile, Remy knew exactly what Spike had in mind, and in the back of his mind he knew it would make his cock long enough to touch the sun. "Feed me everything!" Remy exclaimed in his mind.

[auraspark] "Lets start with a little snack, shall we." With those words he moved the moon and placed it on the tip of your cock. Though this should be really hard to move, is not. Because of the lack of gravity, he only needed to do a hard pull towards the cock tip and let physics do they work.

[Scaper] Remy moaned loudly. His cock throbbed and expanded as it sucked up the moon. Its growth caused his member to crash into the dry remains of earth and start to cock vore it as well. The double-cock vore of two celestial bodies made Remy aroused to the extreme, causing a massive production spike in cum within him even before he absorbed the planet and its moon. His cock grew and grew, longer and longer, until it was almost a whole astronomical unit long (as long as the distance from the earth to the sun) and with thickness to match! The earth and moon created very uneven bulges in Remy's balls, but that was soon fixed as the grinding of Remy's testosterone-filled testicles grinded them down in mere minutes. Remy was amazed, not only because the Riolu was this powerful clearly and that he could cock vore so much, but that he was even MORE hungry now! He had a hunger in his balls greater than anything ever before, and he wanted nothing more than to feed it. He communicated this to Spike.

[auraspark] Spike Psydrag didn't hesitate at all with the pokemon order. He 'grabs' every planet on the solar system and pluto (because is not actually a planet) and put every colossal orbs in line, pointing towards the two orbs that is bigger than most of this planets and will outgrow the rest soon. One by one the planets where getting inside the of hungry, throbbing, celestial cock. All this excitement makes him cum several times, but in less than a sec was always being outmatched by the Munchlax pre.

[Scaper] Remy was greatly pleased with Spike's work, but he was especially pleased with how long his cock grew. His growth seemed to multiply as all of the planets were forced, in a line, into his cock. His shaft grew at least three times the size of the solar system, and grows large enough to be notable from observation of the galaxy itself! His balls rumbled as it turned gas giants and inner planets into more and more cum, his production skyrocketing as all that arousal came down on the Munchlax at once. Remy noticed, however, that they had missed something. "Hey! We forgot the sun!" Remy exclaimed in his mind.

[auraspark] Spike Psydrag grins. "Already one step ahead from you." Without saying anything else. The blue pokemon shoves the SUN inside of your cock tip, as well as 2 more stars that where hundreds times bigger than the big start of the solar system. "I hope you like spicy food." While you were going to vore the 3 stars, he needed to fill his plates again. So he took that time to gulp down all the pre he could of your never-stop-growing member.

[Scaper] Remy absorbed the suns as if they were water. They turned liquidy and flowed into him.

They were made of plasma, and did not have a defined shape except by gravity. Once inside his balls, they were converted to cum as well. Something new happened, though! The suns seemed to recreate themselves within Remy's balls, only instead of sunlight and energy, they were outputting hundreds of gallons of cum every millisecond. This tremendously added to his already expanding endowments and aroused Remy further. It also increased his need to feed; the Munchlax could tell there would be no end to his sexual rampage! Even on its own, his growing cock crashed into more stars and suns, adding to the ones already in him and further increasing his growth. All the time, pre was blasting out of his cock; he may as well have been orgasming. His pre filled with more and more energy now that it was fueled by solar energy, allowing Spike to recharge his plates much faster.

[auraspark] Spike Psydrag plates sure did recharge more fast than before. Actually, they were glowing with more strength than ever. He wanted more of that majestic moment he was having now with the vore pokemon. "Your cum needs some milk" With that really bad joke he grabbed, with his new powers, all the suns and planets and stars.....EVERYTHING of the milky galaxy and pointed it towards the cock. "Here comes the galaxy" He was too excited to make good jokes. But with those words, the constellations shoved inside the godly member. Not able to imagine how many light years it will grow this time.

[Scaper] Remy's cock did indeed grow by the lightyear. Every second seemed to add a new one. Every star flowed into his cock like liquid, all spiraling down into him and reforming into a celestial factory of cum that made the Munchlax grow ever bigger. Remy felt like a god as his cock expanded to new horizons. His preseed, shooting out at speeds that made Einstein look stupid, became ever more powerful with celestial energy that made Spike like a god when he drank. In fact, it was more like an elder god as the entire Milky Way was turned into cum within Remy. His cock extended out beyond to many galaxies out there, easily crashing into some and absorbing them in one go. Remy's cockslit was like a vortex that was sucking in everything it could get, with Spike's god-like help of course

[auraspark] Spike Psydrag continues to shove galaxy after galaxy inside the leaking cock hole, not wanting to stop. But suddenly he gets hit by.....nothing? Placing his paw on the place where he was hit, there was a kind of invisible wall. Could it be? Could those majestic balls and godly throbbing member have reached the limits of the same universe?!?!

[Scaper] Remy's precumming was pushing on the great barrier before him, creating a growing dent. As his cock slammed further into the edge, and as it continued to grow and force the barrier to stretch, Remington's cock created a hole in the universe that allowed the whole thing to pop. With that, Remy grew into the expanse beyond, having successfully outgrown the universe. They were in the multiverse, where universes of every existence floated freely. Remy's cock-vortex absorbed remnants of the universe, further enhancing the power of his precum and thus making Spike that much more capable of feeding the hungry Munchlax. Remy himself couldn't believe what was happening. "Did we outgrow... everything?!" He exclaimed in his head to Spike

[auraspark] Spike Psydrag couldn't see anything than darkness and some points of light that are far away from him. "I-I think you did. So this is the multiverse?"

[Scaper] In the back of Remington's mind, he didn't really know himself. All that he knew was that he was still hungry. "I guess so. Do you think you're powerful enough to grab those?" Remy said, pointing out in his mind the points of light. If the Munchlax's theory was correct, those dots of light were other existences, which could make excellent food for his gluttonous cock.

[auraspark] Spike Psydrag tried to uses his again upgraded powers to move one of the points of lights. They are more far than he thought, so he tried to use something different. Using teleport he brings the point in front of the cock tip on a blink of an eye. That point was actually a kind of bubble. Containing within, a bunch of galaxies! That was an impressive moment to the riolu god. How many galaxy are there? More than a million he thought. All the infinited planets that are inside those galaxies that are inside that universe. The living things that must be there. New races, new places, new everything. But what more excited the blue dog was the next idea. "I wonder how much it will grow this time" And with those words, he send a whole new discoverment directly to it's doom.

[Scaper] Remy's cock bloated huge as the lump of the forsaken universe was forced into Remy's immense length. On and on it grew, outsizing the devoured universe at least three times. The universe pushed past the base of Remington's cock and successfully fell into his balls. Remy felt his cum production octuple in the wake of this extreme edition to his growing reservoir. His balls grinded down the forsaken realm into cum within seconds, groaning audibly even now that they weren't really in an existence where sound could be. Remy's godly precum seemed to have a new effect on the Riolu. The energy was so great it was causing the Riolu's entire body to grow larger.

[auraspark] Spike Psydrag grew bigger in size, as his powers grew stronger too. With new powers comes new abilities. He linked his plates with the pokemons balls making him even stronger than ever. Everytime the balls are feed now, makes him more strong. He divided his body to make hundreds of copies, a worthy army for the hungry cock and balls. They go to search every universe in this wide place and brings it back to the vorer. One by one they start to shove inside the member. One, two, ten, twenty.....hundreds of universes.....all of it, for the godly cock.

[Scaper] The godcock never stopped growing, and Remy never stopped enjoying the feeding. All the time his pleasure spiked higher, and never faltered even the slightest bit for even a second. As he was fed, his hunger continued to grow! his balls, connected with the minds and bodies of the godly Spike, communicated their hunger to him and only increased their desire and pleasure to feed them. They communicated something else too; the more they were fed, the hornier the Riolu gods became. There was never a moment when they weren't extremely wet in the cock. The Multiverse began to become depleted of its contents, all of the Riolus proving too

unstoppable of an army to be outmatched. As the final universes of the plane they were in were depleted, used for more important matters, Remy's endowments were heavily stretching the barriers of THIS plane as well. During their whole voring rampage, Remy had not came once, but now he could feel his orgasam welling up as the multiverse became nothing more than a stocking for his massiveness.

[auraspark] Spike Psydrag grins, all his body wet with sweat, pre and his own cum. Looking that there was no more a single thing on this vast plane and that the god cock has reached a new barrier again, he remembered something the Munchlax said a while ago. "Hehe, it's seems that there is nothing else here to feed you. This place is empty, Do you want to re-fill it?"

[1:54:16 PM] Remington: Remy nodded. His balls' power had grown to new limits since they had began in this plane. Perhaps it was enough for creationism! If it was, then there was the potential for infinite growth, since Spike's power would grow the more he created matter to feed Remy. This idea occurred to Remy, and he communicated it to Spike.

[auraspark] Spike Psydrag , happy with the answer. Started to rub and lick the cock (something he wanted more than before). Tasting the never ending pre and growing more with the excitement. He summoned octillions of clones to please the colossal monster of flesh. Covering the member with tiny blue points of the riolu clones that licks, rubs, and came on the cock, pleasing the god while they are lost in pure ecstasy. Some of the clones wanted to be the food of the member and went inside, a giant bulge was forming on the urethra thanks to the clones that never stopped dividing while going deeper inside to be part of the munchlax semen. Soon the entire cock somehow gets completely covered by the copies. Pleasing the pokemon with octillions of licks and rubs to drive him insane.

[Scaper] Remy's cock had a surge of growth again, not just from the fact that many Riolut were sacrificing themselves to the god cock, but also because of the immense pleasuring the Riolut gods were giving him. His cock throbbed suddenly, knocking many of the Riolut off. Several other throbs knocked the remaining off the others. The cock widened at the base as a bulge seemed to make its way OUT of the god cock! The Riolut gods felt immense pleasure within them all at once, and they all came in unison. Remy's tip exploded with a surge of cum never seen by either of them before. The Multiverse was ripped to shreds in an instant, revealing another plane similar to the previous one! They had not outgrown everything after all! That wasn't a concern to them right now, however. Their orgasms lasted a whole hour, but in that time Remy's endowments never seemed to shrink. They only grew, in fact, as did Spike's power. As pre began to surge out of Remy's tip yet again, the cock communicated its need for more sustenance in the form of the dots of light that could be seen all around them. Other Multiverses, it seemed.

[auraspark] Spike Psydrag looked the new plane of multiverses. And again he obeyed the balls orders, some of the clones went to grab those multiverses and shove it again inside the god cock. While others decided to stay around the tip of the cock (a spot he thinks that should be

very sensitive) and continued to please the multiverse of flesh.

[Scaper] Remy's god cock, of course, continued to grow. The Munchlax had been knocked out during the first few minutes of his cosmic orgasm, but the euphoria had given him very nice dreams. He communicated a dream of having fun with the Riolu that he had experienced, just as a way of sharing it with him. He also communicated his extreme enjoyment of the situation and the fact that he didn't want to stop! He wanted to keep going, outgrowing planes until there was nothing left but the god cock and its Riolu servants. His wish would continue to be fulfilled as the Multiverses around them were devoured by his cock, thanks to the ever growing Spikes. As the first Multiverse consumed fell into Remy's balls, a new surge of power came over the Riolu clones, causing a change in them. Their cocks seemed to grow quite extravagantly, growing twice as long as any of their bodies. Their bodies, as well, grew immensely, bigger than any universe there had been before. Now not only were they that much more powerful, but their big, throbbing endowments made them that much more horny.

[auraspark] Spike Psydrag and the clones moaned with the pleasure coming from the godly cock. Some of them started to rub their hyper member against the multiverse shaft, while others went to bring more food so it can always be pleased. All was going inside the vorer, the multiverse and the demigods riolus were a mere snack for it. Thousands billions of clones came almost at the same time, giving the cock something else to drink. Though the efforts the clones were making looked 'small' for the cock god, it seemed quite pleased.

[Scaper] Remington sat back and watched as his divine endowments continued their destructive expansion. Already, he could feel yet another orgasm starting to overtake him. The euphoria passing through him was like nothing else, and it only got better as the Riolu gods continued to please the great godcock. Immense pleasure passed through the minds and bodies of the Riolu gods as their cocks swelled, their balls roiled, and euphoria overtook them all as well. The godcock and its servants all came in unison, unfathomable amounts of cum surging out into the megaverse and filling it within like a water balloon. The two parties were completely paralyzed, unable to do anything else but watch the megaverse fill... and fill... and fill... until finally all of the space around them was a solid liquidy white. Still they all came, though, and it was becoming clear that there was no vacancy left in this plane of existence. Remy smiled a devious grin as he felt a final surge of cum rush out of his godcock, overpowering the megaverse and blowing it up from within. Remy's cock was actually extremely small compared to the Megaverses around him, like a marble to a sun. His first order of business was to fix that difference right away; the godcock gave its orders to Spike

[Scaper] Remington: The godcock ordered Spike to feed it the realms of this plane. The Riolu obeyed and fed it a single megaverse, enlarging Remy's cock in great multitudes. So it went on like this, devouring existences, Spike becoming more and more powerful, and the godcock rewarding both Remy and Spike with endless pleasure. Realms were outgrown or overfilled and blown up depending on Remington's mood at the time. Eventually they reached the point where Remy broke through a plane of existence and there was nothing left; he had outgrown the

space-time continuum; an impressive feat, especially to Remy. His cock was officially bigger than everything, and as the last planes of existence were devoured, he had officially devoured everything save for spacetime. In a single thought, that changed as the Riolu gods used their now-endless power to create a suction in Remy's cock that absorbed spacetime. Remy was amazed; he WAS spacetime now, and so was the Riolu. It had been so much fun doing this, he wanted to do it again at some point very soon. For now, though, it was time to reverse all of this. He did ask one thing of Spike, though. He asked the god Riolu to take his cock. Spike grew himself to a size that could take the godcock and pushed himself down upon it, taking it into his rear. He slid up and down the shaft, as if they weren't any bigger than their normal sizes. Remy came for the final time, all of his devoured load finally truly getting released, into Spark. The Riolu was ballooned out to the size of existence itself, and Remy was left with his finally normal-sized cock stuck in the Riolu's butt. He was seriously looking forward to more fun with his new friend Spark some time...
