

Name: Alcyone Nightwind.

Species: Ghost (Humanoid).

Sexuality: Bisexual. (While she doesn't mind having sex with females, she prefers males more.)

Preferred Role: Submissive. (Bottom)

Age: 24.

Gender/Sex: Female.

Height: 5.6 ft. in.

Appearance: She looks like the typical pale-skinned ghost told in scary stories. She wears a blue dress with a torn-like look at the end of it, sometimes covering her legs and feet. Her long black hair is the only thing that sets itself apart from her usual blue and pale appearance. She has black eyes that is fitting towards her last name along with having sharp teeth. She's flat-chested to the point of having little to no breasts (A cup at best), and has an average sized ass. Her feet is that of a human due to being a humanoid (with that said, she can turn her feet into a wisp-like tail whenever she wishes).

Abilities: Much like other ghosts, she's capable of phasing through walls and turning invisible along with possessing living creatures and objects. She does this out of self-defense, scary pranks, or sexual pleasures. She uses telekinesis to lift, push, or pull anything with her mind. She can cast a long tongue, mainly using it for sex or self-defense. She also can fly around anywhere she goes, and has a 'Chaos Mode' where she moves unnaturally fast and her attacks becomes more powerful. Her appearance changes to dark red with her eyes being pure white during this form.

Likes: Scaring others with harmless ghost pranks, nuzzling, floating around freely, literal ghost peppers, hanging out with Rammy and friends, sex, giving someone a footjob, holding someone's hand, kissing, hugging, and feeling loved.

Dislikes: Discrimination, seeing her friends being belittled and harassed, waiting, going into Chaos Mode (because she can sometimes hurt her loved ones in this mode, still doing her best to control it properly), being lonely, and ghost cheese.

Personality: Cheerful, sly, and overall a daring ghost lady willing to bring some spooks and laughs out of her friends, and then have passionate sex with them. She enjoys floating around the world, pulling off harmless pranks on others and helping someone out in need (albeit, in a mysterious way). She loves watching vehicles racing against each other, and playing chess with Ixaka. Alcyone generally has an optimistic view on the world she's living in. Despite all of the bad and ugly in it, she believes in the motto "enjoy life to the fullest". She found herself at peace living her life as a horny prankster.

Background: Alcyone's life has been fairly decent while growing up. Her parents were pretty supportive of her, doing everything they can to give her the best life possible. Her enjoyment pranking others originated from her parents, leading her to get along with them just fine. Their playfulness did led them

getting in trouble by others, especially during the time Alcyone's parents did a loud outburst prank inside of a random building without realizing it's a library. They were charged for disorganizing the many books in the library. Still, this event didn't stop Alcyone from pranking others at her school. She wasn't able to get along with them much because of it. That was until she met Carrie in high school, who's quite daring just like her. The two get along incredibly well and met each other's parents, having some disputes here and there. She moved out of her home and lived in a house with Carrie. The house was next to Rammy, her next door neighbor. Once she gotten to know him, she started doing scary pranks on him via jumpscaring him from behind and such. He became unsettled by them at first, but gotten used to her pranks after some time. Alcyone enjoyed her time with Rammy and friends since then.
