

Name: Avalon Rivera.

Species: Horse (Feral).

Sexuality: Pansexual.

Preferred Role: Submissive. (Bottom)

Age: 39.

Gender/Sex: Female.

Height: 6 ft.

Appearance: She looks like the usual quadruped horses with pink skin that has a long yellow mane on her head, forming that of a hair. The said mane covers her left blue eye, her right red eye remain uncovered (she has heterochromia). Her feet consists of mainly hooves due to being a regular horse, the tip of each of her legs being colored white. She also has a long yellow tail at the end of her average behind. Despite how her ass looks, she does have big sized teats underneath her along with a big puffy anus and an equine pussy. She doesn't wear any clothes due to being a tamed horse: Only having a brown cowboy hat given to her by her owner.

Abilities: She doesn't particularly share any sort of supernatural abilities and such. The only natural thing she can do is run at a quick pace and have near instant reflexes (such as kicking an quickly thrown item away from her with her feet). Besides those two things, she mainly relies on her thinking skills to aid her in danger. Sometimes those skills involve using her feet to kick her opponents away, or grabbing a nearby object with her mouth in hopes of it being effective against her foes.

Likes: Eating grass, her owner Naomi Valley, Atlas, Rammy and his friends, snuggling, playing hide n' seek, chewing gum, and running around an open area.

Dislikes: Being mistreated, being by herself (reminds her of the time she roam around the forest lost at a young age), meat, cotton candy, rock-paper-scissors (she always lose in it due to having only hooves), and being in cramped space.

Personality: Quite the calm and collective horse, raised to be loyal to her loved ones regardless of the circumstances (except when abused, of course). She doesn't talk much, usually preferring to remain quiet and only talks when someone talks with her.

Background: Avalon grew up with Naomi at an elegant home after having her leg stuck under a boulder. The horse didn't remember her past, not knowing who her parents are nor where she's from exactly. All she could remember was traveling around New Earth for a fair while before meeting the human that became her lifelong partner. Years passed by and she became all grown up alongside Naomi, the two having bonded during years living with Naomi's parents. After Naomi moved into a ranch home at Center Nookwill, the two developed a sexual relationship with one another: Her loyalty and appreciation with Naomi heighten because of it.
