

Employee Title: Intern

EIN: 63214

Gender: Male

First Name: **Nicodemus**

Last Name: **REDACTED**

Employment Status: Active (Probationary)

Summary:

Hired alongside the other Intern “Cashoo” (EIN 63215), Nicodemus is on probationary employment terms. He has proven already to be very capable and works very well with his immediate supervisor The Assistant and Cashoo. Indeed, Nicodemus has proven to be the voice of order to what would likely be a significantly more chaotic pairing of The Assistant and Cashoo. He shows great potential and hopefully will decide to continue with Caliph Industries after his probationary period.

His past does deserve some mention however. Nicodemus listed several items on his employment application that require consideration, such as military service and treatment for Post Traumatic Stress Disorder. This has required some allowance on the part of his coworkers, but they appeared to have dealt with these issues without too many complications or judgement.

If anything, Nicodemus’s prior experience has given him some discipline that his other two coworkers distinctly lack; however it has made him impersonal and somewhat unapproachable. Things he could no doubt work on.

All the above considered, he is a credit to the team at Caliph Industries.
