

in patiendo

what is this hate?
What is this parasite?
Is this just the end or the beginning?
Did it just start or did it all end.

What is the path I lead
What is the darkness I feel
Is this death or is this life?
Did my path betray on me?

What is this pain that takes me over
What is this suffering
Is this just the darkness or the light
Is the new day coming or is the old day dying?

What will happen if the crimson sun is not rising
What is the meaning if it all crumbles
Is the day ending, is the day beginning?
Did you feel the cold creeping over?

What is the power of life?
What is the meaning of the pain?
Is the beginning ending or is the end beginning
Did I just fade into eternity?
