

For 18 years of his life Steven was confused on the topic of love, he said to put it bluntly "he has a void in his chest where his heart should be ". This is often why he identifies as Aromantic Asexual, even though he himself never had any crushes as he did spend more time reading a book than having relationships for 5 years of his life before he graduated college at 18. It wasn't until one day when he tagged along with his grandfather to a meeting with the second canines of the clans with their families as well. Steven was seen holding one of his books reading quietly in the corner as his grandfather was talking to the second canines when someone had approached him. It was Duncan Smith, one of the sons of the second canines of the Spirit Clan, a slim but toned Doberman with flat hair and brown eyes.

"You are Prince Steven Correct?"

"Yes I am, and I think you are Graves's Head Canine..?"

"That's Correct I have heard a lot about you before from your brothers, friends and grandfather... Do you mind if I sit with you?"

"Sure I don't mind"

Duncan appeared to be around 6'3 while Steven was only 5'9 (practically 5'8 without his shoes)

The two did talk to get to know each other better and even swapped phone numbers once they were done. They were talking about books, their families and pasts along with Duncan mentioning that he is 23 years old fresh out of college.

He did learn about him that he did date a lot and is bisexual, and that he did graduate the top of his class and did earn a law enforcement bachelor's degree and has mastered the Spirit element, but also did gain the Normal Dragon scale as well.

After some time Steven felt something in his chest... a fluttery feeling whenever he was with Duncan it was a weird feeling he could not explain and no matter how many things he turned upside down to find a clue on what this feeling was, he told Duncan about it and it was likely he developed a crush on him and after Steven confessed it the two started dating and are going strong despite "this fluttery feeling" he has in his chest
