

Dudley was born on November 3rd 2000 making him 19 years old and a month older than Artemis and Solaris. He is the youngest out of 3 older brothers and 2 older sisters, who display the traits before he was reformed. His parents namely his father are the same way while his mother is the matriarch of the family. Growing up he had two personalities, one he showed around his family and the other he showed to his friends but he had to act a certain way to avoid being suspicious. After his parents' plans fell through a season before he realizes that if he keeps blindly following his family eventually that was going to lead to more problems (than his seemingly near death but was trapped in the rubble underground the island.) He had fallen in love with Amber's sister Angela and wants to experience life without it being constantly watched and observed.

His family members are-

Dudley Jr & Elizabeth Saikou (56 & 52), Pierce (29), Catherine (27), Terence (25), Bridiget (23) and Brendan (21)

He is a ghost wolf, having the powers of Kage and Akira, and uses a scythe as a weapon with a brown magic aura tied to him
