

The Team now at capacity begin preparing themselves to navigate inside the crystal world.

"This... world is huge..."

Issac had said out loud

"I think this has been the first time I have been able to sense something without my powers..."

"But can you detect any other people besides us?"

Cole had asked.

Issac had used his powers to do a scan that lasted for a few minutes before he was done.

"I don't sense anyone else besides us.. or any traces of someone else being here either."

"So that means whatever the source of this chaos is somewhere in here...."

The team began to do their thing and explore the world now they could hold their guard against the many monsters that are found here.

After a few hours their investigation of the crystal world came to nothing but Issac was able to map out the parts of the world they discovered in their trip in order to try to figure out something.
