

In order to keep the mood high Leo had suggested that they should all head to a waterpark a town over.

And then it happened there was an earthquake that came from Diamond Lake, as there were a bunch of crystal monsters that came from the crystal world.

The team pulled out their phones and looked at what appeared to be the cave with the crystal in it broken and there was a purple portal hole in its place.

The team also noticed that the necklaces that allow them to have their crystal forms are broken and faded which makes this more complicated if they want to fight back.

So after they got their clothes and showered they had jetted off back to their hometown trying to figure out what to do next without their powers.
