

That next night Brian was asleep in his room and deep inside his mind he sees Darius in physical form this time.

"Who are you?"

"My Name is Darius, I know who you are Brian"

"uhh... that's creepy"

"Look, I came into existence because of that spell that darkheart sister hit you with"

"your point?"

"I'm going to take over whenever you like it or not!"

Dairus had hit Brian with a red magic attack knocking him down, as Brian fell to his knees.

"Maybe I'll have some fun with this body of yours Bryce"

Darius laughs evilly as Brian gets put into a mental jail of sorts as he starts silently sobbing.

In reality Brain's horns had gotten a bit more sharper seemingly overnight as he was grinning in his sleep.
