

Zephyr once he was back home, had properly reconnected with his family and his siblings Wendy and Skyler.

His father which is just the splitting image of Zephyr when he was younger had a bit of an argument but after some lightning was thrown the two had made up in a very emotional moment.

Lastly Zephyr made up with his immediate family, and they seemed to have made up him and are getting along pretty well now.

Also Zeph's cocky/douchebag persona it's a bit exaggerated as he is a bit of a softie at times.
