

The Team with two new teammates had explored the next block of the citadel, A hellish looking Carnival, compared to the run down looking prison of the last area.

Preston had noted that when the last boss attacked it was the day of a full moon, and that the boss attacked when the last block was explored thoroughly to the bottom of it.

Even though Wyatt was navigating all the way it would take some time for the others to explore this block more thoroughly like the last one, so day by day night by night they explored it while also fighting monsters along the way.

During school hours the 6 had begun to grow a bit closer as friends with Thomas helping Wyatt to come out of his shell a bit.

So currently... Preston and Lucas are the only two seniors of the group, everyone else but Wyatt are Juniors with Wyatt being a sophomore.
