

The Team the group of 9 Take on the next of the Magic Bosses: The Nightmare Pharaoh.

Levi Who was revealed to be the magic vigilante had joined in the fighting as he had figured things out.

However Skyler's Mini mission to figure out the magic vigilante had failed but sort of guessed it was Levi out of his... "detective" instinct.

Levi Lucas Thomas and Christopher proved to be a very powerful attack squad, but once the Pharaoh was defeated Levi had said he did not want to join as he prefers to do this work on his own.

Thomas could not really do much, as he knew Levi would never really rat out the fighters and just agreed to his request.

Meanwhile Wyatt and Skyler were trying to map out the Citadel at this point, and as predicted they found another area under this block but fell back because well they were tired and exhausted from the fighting.
