

During the next block Levi had dropped that there are likely two more magic users who did the same things he did being a magic vigilante.

Levi was right as during the 6th boss fight as two more people showed up.

Tommy Fairfield- a 6'6 Horse, a 6'6 Horse with a very muscular appearance, he has dark brown fur with long black hair going halfway down his back and covering his eyes which are green.

He is a hard working, Optimistic Honest and trustworthy person but is not very smart in the academics department, and can act like a loner, lastly he is 16 years old but is a senior in high school and one out of two other seniors within the group.

And Last but not least

Alexander Garfield Jr- He is the leader of the guarding club. He is a normal colored skinny but buff 6'3 tiger, he has blue eyes with black hair with a strand of it sticking up. He is an Loner and introvert by nature, but is rather laid back and confident in himself

He is also a Junior 16 year old along with the majority of the group.

Tommy- wears a dark green pair of overalls with brown boots and a dark green farmers hat with a black hoodie under his overalls.

-He uses axes as his main weapon and uses the ground type element.

-His magic form is a titian made out of earth and ground

Alexander- He wears a Dark Green raincoat with gardeners gloves, blue jeans and black boots.

-He uses the grass type element and uses a shovel as his weapon.

-His magic form is a huge Sakura tree.

The 6th boss Better Known as the Nightmare Priest had no chance against the fully united team.

Thomas knew that the two new guys may not join so easily, even though off screen he was friendly with both of them. Alex and Tommy were the ones who wanted to join and they let them into the group.

In total the Magic Fighters had 14 members, two leaders and a navigator (counted in) with the rest being attackers.

So after this Thomas knew that if anything came up they would be more than capable of taking down the problem that would inevitably get in their way.
