

The next day at the unknown HQ of the Granite mafia the leader of the Mafia was seen with the other leaders of the bases across Mezzanine.

"Now... before i send you all to your bases.. be aware of these thorns in our side"

It was also noted that each of the leaders were Commanders with the Leader being named "Leader Arthur " and was a tiger who often wore the cloak preventing the viewer from seeing who they were.

It was then noticed that Commander's Chrysoprase and Chambersite were out of commission at least for now.
