

Welcome to Interrealm:

A Comprehensive Guide for New Agents, Operatives and Staff working for the Agency for Interdimensional Defense, Exploration and Intelligence

#1. Introduction

Greetings New Agent!

I am A.V.A. the gatemaster and quantum computer for the Agency for Interdimensional Defense, Exploration and Intelligence. Better known in the region as "Interrealm". I will be your guide as you learn much about the largest and most advanced organization across the Thirteen Realms. Serving over hundreds of worlds and universes with major nations under its belt. In this series of guides, this will help new members get a good handle of everything you are expected to do.

From the structure and history of the organization to the individuals who made it work through the hardships and trials. Interrealm's purpose is to secure the exchange of knowledge, trade, travel and security between the universes of the Thirteen Realms and this is just the beginning of your training as you enter through the gates of the Brookmont Complex and see our insignia with these words:

"Scientia Quod Vires, Ex Universitas Ultra" - From Worlds Beyond, Knowledge & Strength.
