

Daisy murr as she slowly wakes up and looked down at her belly, smiling and rubbing it as she feels nick squirming inside her, still unable to believe that he's actually inside her. She gets up and heads down for breakfast and her parents saw her belly. "Honey, how did you get pregnant?" Her mom asks. "Nick is in there mom, he crawled inside me last night." She smiles and rubs her belly as nick called out and pushed his hand against her wall, her mom smiled and rubs daisy's belly. "Well I hope he's ok in there." She says with a smile. "Oh he is mom." Daisy says, eating breakfast and having a big filling breakfast, she then gets ready for school and sits on the buss with her hands on her belly.

Then Jake the bully came over and looked at her. "Oh look, the little furry bitch has a baby, how disgusting, where's your little runt?" He asks mockingly. She just grumbles as she looked away from him, he grabs her fur and pulled. "I ASKED YOU A FUCKING QUESTION!" She yells in pain and punched him, giving him a black eye, he groans and gets up covering his eye, she growls at him and he backed off, she looks out the window and calms down, luckily the whole thing was caught on camera at the front of the bus so that would be on her side, she gets out and heads to class as Jake gets sent to the principles office for what he did on the bus, she being an anthro mew and had a perfect punishment for him, he being stuck as his lucario's baby for the next 9 months. She didn't complain as she found him an ass to begin with.

Daisy felt kind of good after showing him her strength, she relaxed in class as she rubs her belly. Then one of her friends came over to see her belly and feel nick move inside, looking at her two pichu and thinking of trying the same thing with them. But with jannet's leaf stone bracelet so close to nick he starts evolving inside daisy, her belly glowing and growing bigger, she gasping as she held her belly, feeling nick growing into a servine. She slips off her seat and was on the floor, holding her belly as nick squirmed around inside, wondering what just happened, the teacher called daisy's mom and her friends helped her to her feet then to the front office.

Daisy sits at the front office and slowly adjusts to nicks size inside her, feeling him squirming constantly trying to get comfy again. Moaning loudly as a result, her sex dripping wet from the pleasure, then nick eventually gets settled back in just as her mother arrived, they walking out to the car with her belly bouncing as she walked, she gets in and they drive off to the hospital to check if nick was alright inside, he having grown to 4 feet big giving daisy a very large belly. They arrived at the hospital and the doctor runs tests on daisy and they use an ultrasound to see nick inside her, seeing he was still alright and breathing just fine, with that worry gone the doctor asked how a pokemon ended up inside her womb.

"He just started stuffing his head into my sex and just crawled inside me and has been in there sense yesterday night, it felt great." Daisy says as the doctor blinks, shaking his head and gave them both a clean of health and they go home, daisy going to her room and lay's on her bed, looking down at her belly and sighs. "Nick, how are you going to get out?" She asks him and just lays back, then gasps as she felt nick squirming around inside her again, this time pushing his way out of her sex, she moaned loudly as she pushed as hard as she could to help get him out, her body stretching as fat as it could naturally go. Nick sliding out of her covered in her juices, taking a breath of fresh air for the first time in over a day, he coughed and gets up, stretching his limbs and moving around a bit, and between his legs was a 2 foot long 4 inch thick dick.

Daisy pants heavily and was sweating bullets. Nick cleans him self off and looked at himself, Daisy sits up and saw his new body. "Wow Nick, you look great." She says between breaths, recovering from rebirthing her pet, he looking at her and laying down beside her and she pets his

head, making him murr softly as she nuzzled him lovingly, her hand rubbing his new and larger dick, feeling it throbbing with his heart beat. The veins throbbing and pre flowing out the tip all over her belly. Her sex having gone back to normal. Nick murr and humps against her belly, she smiles and licked the tip softly, sucking on it and drinking the pre he was putting out and loved how it tasted, he moaned and humped into her mouth, she smiled and started taking his fat length down her throat and giving him his first blow job.

Nick moans loudly as he fucked Daisy's mouth as her stomach swelled slowly with the amount of pre he was shooting into her, she reaching under his dick to feel for something to massage but found two large balls, feeling how warm they were and how soft they felt, like two cum filled water balloons, she squished them gently and felt more pre shoot into her stomach, moaning around his dick as she pulled him out and offered her sex to him again, he getting on top of her and starts humping into her harder and faster then ever before, daisy moaning loudly in bliss as she gets fucked so hard and deep. Daisy slowly building to her climax with nick and thanks to his stay in her womb her body had become physically mature and able to bare children.

He cries out as he floods her with so much cum her belly ballooned out to as big as it was with him in it about 3 feet then the pressure caused the rest to leak out around his member and soaked the bed, daisy yelling in bliss as she gets impregnated with over 10 young snivy, and little dose she know that her pregnancy will have some interesting side effects.
