

Daisy went about her day with her pet snivy Nick, tanking him to school with her to meet her friends and the other pokemon there. She smiled as he laid on her shoulders and made many friends with the students and their pokemon, the females more so than the rest. She was in her biology class studying pokemon anatomy and she took careful notes on this, wanting to be a pokemon doctor when she grows up. Then the class bully came in and walked up to her, he being around 9 years old, black hair, slightly toned body, and was human with chocolate brown skin, having one green eye and one blue eye and had an adult female lucario with him. "well well well, the little tramp got herself a snivy, looks pathetic like you." He said mockingly. "Yeah? well he's got a bigger boy stick than you jack." She said proudly. "HAH! I doubt that, I'm a good 7 inches long and a full 3 inches thick." He said confidently. "He's got one that's 11 inches long and 3 inches thick." He just stares at her. "Your lying. No way a runt like him can be that big." He said in disbelief. She chuckled and rubbed Nick's slit and he murmurs as his 11 inch long 3 inch thick dick came out and throbbed, making Jack's jaw hit the floor and he grumbled. "I'm telling the teacher your using drugs on your pokemon!" He said and ran to the teacher. "I DID NOT! I would never use those nasty things on my friends!"

He tells the teacher and Daisy tells him she did no such thing and that Jack was lying, in the debate the teacher sided with Daisy and had Jack sit in the time out corner with the dunce cap and everything. He pouts and grumbles as his lucario sat in another corner. She chuckled and went about her day like normal. On her way home Nick got a bit worked up and she smiled down at him. "You need some help Nick?" She asked him and he nods, his dick throbbing with need. She smiles and rubs his large dick and even took it into her mouth, he having taught her more ways to make him feel good. He moaned as she sucked on his member gently, he holding her head as she gave him a blow job. He humped into her mouth and moaned louder as his thick sweet pre flowed down her throat, she gulping it and the first 3 inches of his dick, adding to his pleasure. He cried out as he came hard down her throat and her throat bulges with every pulse of cum, her belly getting filled to the max as she drank every last drop from him.

He pants and lets her head go, she licked his member clean before burping loudly and covering her mouth. "Excuse me." she said with a blush. He murmurs and lays on her shoulders, as the bus stopped outside her house she walked up to the door and went right inside. "Hey sweetie, how was school?" Her mother asked nicely. "It was ok, but Jack tried to get me in trouble by saying I used drugs on Nick to make his boy hood bigger than

his. But the teacher didn't believe him and he got put in the corner. We also learned about pokemon body parts."She said with a smile. "Thats great, dinner will be ready soon." Her mom said. "Thanks mom but I'm not hungry, I had a nice snack from nick on the way home." She said and nick smiled, they heading to daisy's room to watch some tv. "Hehehehehe that girl and her pet are inseprable." She shook her head and kept cooking. Daisy and nick watched their shows till it was past bed time and she turned the tv off and smiled at him. "So nick, anything you wanna do before bed time?" She asked him and he nods, having a bit of a blush as he wanted to try something new. He gets between her legs and nuzzled her crotch, she blushed and smiled as she lays back and he licked at her folds. He licked deep and lapped up her sweet juices, he then stopped and licked his lips clean. He then started nuzzling the tip of his snout into her wet slick pussy. "Ohhhhhh~<3 that feels so good, what are you planning Nick?" she asked as he nuzzled deeper into her.

His head slowly pushed into her deeper and he licked at her walls teasingly, she gasping in lust as her body was stretched open around his head, her belly bulging out as he pushed deeper inside her. She moaned loudly and dug her claws into her bed as his head pushed against her cervix, it slowly being stretched out as his every breath was filled with her aluring scent. He moaned as his dick was throbbing heavily with his building lust as she yells and came all over him, his upper half sticking out of her and slowly going deeper, her belly swelling more as he squirmed his way inside her deepest chamber. "OH NICK! This feels so good! Keep going!" She said in her lust, her belly swelling out more and more as his little legs and tail were sticking out of her, his dick having slid into her tight tail hole making her gasp louder in pleasure. It only to get better as he started humping into her ass wile inside her, both motions causing her to scream in absolute bliss.

He keeps fucking her ass as he squirmed in her sex, causing her to have climax after climax, getting soaked in her juices in the process as he floods her bowls with more of his thick potent cream, her stomach swelling to hold yet another gallon of his seed and some of it came up her throat. She covered her mouth and forced it back down as he pulled out and crawled in the rest of the way, leaving his squirming tail still sticking out of her cunt, he squirms inside her as he gets into a comfy position and his tail slips inside with the rest of him, causing Daisy to scream in pleasure as she came harder then she ever did before, She pants heavily on the bed and looked down at her belly and saw it move as Nick got comfy inside.

Daisy pants heavily as she adjusts to having her pet inside her body, feeling every little twitch he made, she then rubs her belly lovingly and fell fast asleep, loving the feeling very much, she feeling like a mother as she fell into dream land.
