STORY CONCEPT AND ILLUSTRATOR BY LOVELESS NOVA

Maretopolis, Mane-lac's Hideout.

Matter-Horn : You will never get away with this! Mane-lac!! *Yelling from within the cage where she and her other Power Pony Friends were captured...once again by their archenemy, Mane-lac*

Mane-lac : Oh really my little purple egghead?! Then how will you stop me from bringing doomsday to all the ponies in Maretopolis this time? *She laughs as she stands in front of the Power Ponies' cage, walking on her tendril-like mane. Behind her, a rocket filled with laughing powder that will force anypony who breathes it to laugh uncontrollably until they are unable to focus on anything at all. It truly was the perfect tool to destroy everypony's peaceful day*

Radiance : Well, you should know that the hero always wins in the end, darling. *She explains while laying down on a sofa she created using her special power. She seems unusually relaxed with the situation, more so than anypony else...or maybe she was just bored, Nopony could be sure.*

Mane-lac : *Laughs sinisterly* Say anything you want Radiance! But nothing can stop me now, since all of you are trapped here! Now that I've captured all of the Power Ponies, nothing will be able to stop me!! *She monologues and ends in a typical villainous laugh, suitable for a crazy mare like her, once again*

??? : *loud sigh* You've forgotten about me once again Mane-lac, and that is why you will fail once again. *Explains a male voice coming from the 2nd floor of the factory*

Mane-lac : Wha-Who!! Who said that!?! Who are you!?! Where are you!?!*She rapidly looks around, attempting to find the unknown intruder, until she spots a tall purple dragon with green spines, wearing a cape and a mask, standing in front

of the cage control switches for the cages the Power Ponies were trapped in on the second floor, along with her henchpony now unconscious beside him*

Humdrum : Humdrum The Sidekick, at your service.*He smiles and turned off the switch beside him by pulling it down*

After the switch was turned off, the cage that kept the Power Ponies trapped swung wide open and the six heroes were now free. Mane-lac ordered her henchponies to attack the Power Ponies, but they were easily cast aside by the Power Ponies' superpowers. Even Mane-lac failed to stop them, since she alone was not powerful enough to beat seven superheroes. She was blasted away far into the sky when her rocket exploded that burning all of her hard work along with it. All the while, Humdrum just sat there, humming a song as he watched the Power Ponies do the rest of the work for him

Somewhere not far from Maretropolis...

Mane-lac : *Cough, Cough* *She clears her airways as she climbs her way out of the crater, created when she impacted the earth. Fortunately, she had used her tendril-like hair to cushion her landing, thus she was not injured from the impact or the explosion from her own doomsday rocket*

Mane-lac : That's powerless sidekick!! *gnashes teeth* He came and ruined my plan again!! How did the powerless win against me?!...He must have some secret hidden power that nopony knows about! And I must know it! For he must pay!!
She cracks a crazy smile and looks back towards Maretropolis, she starts to head back towards the town by using her tendril hair as legs. This took her some time as she was blown away for a considerable distance, but eventually she would arrive at her target building...Power Ponies HQ

Power Ponies HQ

Night time

Mane-lac : Hmm, I usually come to this building to steal important information from that annoying group of mares. It shames me now that I've come only for the purpose of seeing that powerless runt; this is just so shameful of me...But where is his room?

*Mane-lac Climbed the Power Ponies HQ building with her tendril-mane, searching for the living and sleeping quarters for Humdrum's room. But unknown to her, the Power Ponies actually generally stay in their own houses, located inside the town, it was only Humdrum who stayed here, since he was an orphan. So in the end, she found the only room that had the light on, (which must have been Humdrum's room) and she moved towards his window, peering into the room. She silently hangs upside-down from the roof, using her tendril-mane as she gazed at the sight through the window *

Mane-lac : It seems I found the room...and it appears I've come at the wrong time...She chuckles quietly as she blushes a little, because the sidekick she was seeking was now in front of her...but he was busy doing a very private and personal activity with his hand, while the other hand was holding a book he was intensely reading. She couldn't clearly see the book or his sexual organ as he was turned away from her, but it didn't take much for her to guess that he was masturbating while reading a lewd magazine*

Mane-lac : *Trying hard not to let out an evil laugh* He's so shameless...So ignorant...Jerking-off without knowing that a major villain is right outside his window and watching him....So dirty....Is he jerking off to a photo of the Power Ponies? Hmm, I wonder which one...It's must be that Marshmallow-looking one...*silently giggles evilly*

Mane-lac : How did I lose to some filthy, weak male like him....I must know it...I must know the secret of his power...But for now, I must wait...wait until he falls

asleep....He must have the secret of his power somewhere in his room.... *She tells herself, keeping watch over the young hero jerking-off once more...*

A true villain should have the manners and courtesy to not attack a hero while they enjoying themselves privately, she thought...she came up with that rule herself today...and she will remember it for the future as well...

Mane-lac watch and wait until Humdrum stop what he doing and turn off the light of the room. She wait until she can be sure that he finally fall asleep and hear his snore before she slowly open the window that somehow isn't lock and silently went inside the room. Take out the light stick for her to create a small light for her to see anything. But not bright enough to wake owner of the room

Mane-lac : So young, So naïve. You protect without care to protect yourself. I can even kill you now without you even know it... *She look upon a body of sleeping hero who was under the thick blanket. Her tendril-Mane silently approach to the defenseless hero. But it was stopped before touching him*

Mane-lac : But that isn't my way. *Small evil laugh* I am a trickster, not a killer. The dead man isn't fun to play with at all. *She Might be a villain. But actually, she isn't a killer type. She just love to make a huge plank over the town just to ruin their perfect peaceful day. Never one that she think to kill or hurt anypony badly to the dead*

Mane-lac : Now, let find out the secret of your power, my little Humdrum. *She turn away from the bed and searching everything in the room until she found one colorful magazine laying on the wooden desk with a cover tittle "The Power Ponies Villain : Know All About Them". She carefully open the book and shocking with the content inside*

Mane-lac : Oh...He have a book with full information of all villain!?! *Open more and more page until...* And here is mine...Name, power, born, color, length of tendril-mane and tail, number of tendril, weakness...*Sweating*...great...he even know what kind of thing that can stop my tendril too...Crystonite, hmm...Something that myself didn't know either...So, this is a secret of his power? *Click* Know everything about opponent...know me more than I even know.. *Click* Hmm?

Mane-lac feel like something locking on the base of her mane and tail. And suddenly, an objects that she hold with her tendril-mane just falling to the floor along with her mane and tail that fall down like it out of power. The cold feeling run along her spine when someone behind her said with a familiar voice

??? : Not just that, Mane-lac...They still have another secret....

Mane-lac jumped away from the mystery figure behind her, but the damage had already been done. She could feel some metallic bands wrapped the entirety of her mane and her tail together at the their own respective bases. Both radiated with power, a power that was able to shut down her tendril-like functions in her mane and tail...now both were falling limp, like simple hair

Mane-lac : W...What did you do?! Why can't I move my tendrils!?! *She turned to face the one who dared to attack her...the owner of the room.*

Humdrum : It's just a little toy that I asked my scientist friend to create from a special ore, with the ability to cut out your tendrils from your control. It's nothing but a ordinary mane now. *He stands proudly with a full smile in front of his bed.

He appeared to be fully awake, as if he was awake the whole time, and didn't just wake up from slumber at all.*

Mane-lac : How dare you!! Gahh!! These bastard bands!! *She tried to slip off the metal band with her hooves, but it remained stuck fast. It never moved along her mane and tail at all, it remained stubbornly stuck at the place Humdrum had locked them at.*

Humdrum : Don't bother to break or take it off Mane-lac. I ensured that the metal band was strong, your weak hooves are untrained and powerless, you will be unable to break it and they will remain locked in place where I have left them forever...That is, until you have the key, and this key is the only way to get them off. *He swings a little key in his hand with his finger like a joker, mocking his defeated villain.*

Mane-lac : Give that to me, you fool!! *She tried to snatch the key away from Humdrum with her hooves again and again, but he was simply too fast, and was able to easily avoid all her attempts...Or maybe it was just Mane-lac herself that had become slower, because she used her tendrils to do her work so often, her hooves had weakened significantly from lack of use. Without her tendrils, she was just another ordinary mare without superpowers.*

Humdrum : How does it feel, to be as powerless as me? A hero without any superpowers? *He sees his opponent had finally stopped attacking him in order to get the key and had simply stood away from him, panting exhaustively after using physical actions that were neglected for so long by its owner.*

Mane-lac : S...Shut up. *She yelled with a shivering voice over her gasping*

Humdrum : Anyway, I wonder why did you come here? Did you simply want to spy on me? Or do you have some perverted, twisted mind that wants to see me masturbate for your sick pleasure? *Grins*

Mane-lac : W-WHAT!! W-what makes you think I watched you do that?!! *Tried to make a disgusted face, but her face visibly blushed...and something else below was also starting to betray her...*

Humdrum : Well. I could smell you even when you were outside of my room....and... *He Slowly walked behind Mane-lac whose eyes followed him with uncertainly, before opening wide in shock when he grabbed her buttocks and pulled a cheek to the side to look at her pussy, soaking her rubber-like fabric with her lady nectar*...See how wet you are down here, seems someone is excited too. *Touching her winking clitoris that pushed out under her fabric*

Mane-lac : Gahhh!!!! Get your unworthy hands away from there!!! *She screamed, jumping away from him and turning to face him, she tried to hide her soaking flower with her tail. But she realized she was still unable to move it.*

Humdrum : *Laugh* If you really were watching me, how did you not wonder why I went to sleep without finishing?....I mean, cumming. *Continuing his dialogue when he saw her confusion*

Mane-lac : Oh...T-that...That was just...H...How am I supposed to know!!! I couldn't see from the window while you were facing away from me!! *Yelling angrily before blushing hard, once she was aware of what she just said.*

Humdrum : Oh...right...But that is why I pretend to sleep, just to lure you to come inside my room, I didn't want to tire myself with an orgasm too. *Small laugh*

Mane-lac : Y...You fooled me into walking into your trap!?! How could I fall into your very simple trap?! *To lose so easily like this, was just so embarrassing for her*

Humdrum : For the same reason why me and my Power Pony friends were able to successfully destroy your plans every time, the same reason why the perfect plans of a powerful villain with superpowers failed every time, losing to a weakling like me in the end.

Mane-lac : Me? Lose to you? *Tried to make a crazy laugh but what came out was just the soft laugh of a lady* Do you really think you are the one who wins over me and saves the day!? Hah!! That's funny!! It's those Power Ponies that defeated me! Not you Humdrum!!!

Humdrum : Oh....Really? Than please tell me...Why are you here? *He crossed both of his arms in front of himself and smirked*

Mane-lac : W...What? *She was feeling nervous from his simple question*

Humdrum : If the Power Ponies were the ones who defeated you and destroyed your plan, why did you come after me and not them?

Mane-lac : I...I....I'm not....I just... *Becomes speechless*

Humdrum : Just admit it Mane-lac, you're feeling humiliated because this weak and powerless sidekick with no superpowers destroyed your plan. You don't mind at all if those who defeat you have the same level of power as you, because it's acceptable to you. But losing to me, even if I don't completely defeat you all by myself, you still feel the pain from losing to me. *He said with a grin still plastered on his face, but his tone did not sound like he was mocking her at all, it was actually rather sincere.*

Mane-lac : GAH!!! OK!! I admit that I felt humiliated when I was defeated by you of all ponies!!...Or dragons...So, can you tell me now what secret power you used to defeat my plan!! *She closed her eyes and yelled with enough force to make her face red*

Humdrum : I have no fantasy powers, Mane-lac. I'm just a humdrum. *He said, as he walked back to sit on the edge of his bed and picked up the book he had on the bed to once again look at its inside contents*

Mane-lac : Don't lie to me! You must have something! Some secret power that makes ponies like me not notice you until it's too late!! *She looks at him with fire

in her eyes, as she tried to take the metal band out of her tail once more time using her jaws*

Humdrum : Oh....Yeah....I think I do have that kind of power *giggles*

Mane-lac : *Turns back to look at Spike again since even as her jaw is useless against the metal band* Hah!! I knew it!! So what is it!? A disguise? Invisibility!? Jumping through dimensions!?! What is your secret power!?!

Humdrum : Being so weak, powerless and foolish....Just like you, Mane-lac. Most villains think that I'm too weak and worthless to fight or even look at. They always ignore me and never see me in their vision or even as a problem in their plan to

defeat Power Ponies. They always think that a weakling like me can't do anything and mostly focus their plan and vision on the Power Ponies, never thinking of me....Yeah....Being weak, humble...and ignored is my special power. *He kept talking as his eyes were still reading the book in his hands*

Mane-lac : What!?! H...How could you call something like that a special power!! Are you not hurt at all from being ignored by all the people around you!?! *She looked at Humdrum with an unbelieving face*

Humdrum : Why do you ask? Oh...Is it because it reminds you about yourself in the past? Before you got that crazy mane and tail? Back when you were just a humble shampoo maker?

Mane-lac : Y...You know about my past!?! *She stepped away with caution, since she became Mane-lac, she made sure to destroy everything that made people be able to connect her villainous-self to her former-self. No pony should have known about her past at all...*

Humdrum : Yeah. I even have a book with photos of you, it's such good material to jerk-off to... *Hums a short melody as he moved the book in his hand to let Man-lac see the book clearly. A picture of Mane-lac before she became a villain, laid out in a sexy manner on the cover of a "Playcolt" magazine*

Mane-lac : P...Photo of me!? *Looking at the magazine in Humdrum's hands with shock. Never in her life did she believe she would see that book again, and that shameful history of her...*

Humdrum : Yeah. This is part of a photo series from your first and only time with Playcolt magazine. Did you really want people to notice you that much? Until you were willing to allow them to take this lewd photo of you? *He flipped the pages in the book until it reached his favorite photo, A full page of Mane-lac's former-self, looking at reader with bedroom eyes, spreading her hind legs fully to show her glistening treasure between them.*

Mane-lac : *Blushing hard when she saw that photo. Was she really turned on by a photo of herself!?* Y....You don't understand!! I just need some funds to build my shampoo factory!! To make my dream come true and to fulfil my destiny!! I....I tried to find and ask for sponsors from many places! But nopony cared!! All of them ignored my dream!! I....I had to do it...I had to get my funds by agreeing to be a model for that lewd magazine....I just wanted to get noticed...Is that too much to ask for? *As she thought about her past, she felt the feelings from that dark period in her life coming back...She nearly cried, and that made her paused, as she wondered how could she cry? She thought she couldn't cry anymore, ever since she had her accident in her own factory and became Mane-lac*

Humdrum : No...I do understand...I've felt like that before...I completely understand Mane-lac. But at least one good thing came out of it, it gave me nice material to masturbate to every night. *Giggle*

Mane-lac : Ewww...Pervert.... *Looking at Humdrum with disgust, but then she became curious when she saw him looking back at her with a grin*

Humdrum : Pervert? Well...This is what Playcolt was made for, Mane-lac. You should know it best, since you did agree for them to take a lewd photo of you for this magazine after all. You should have expected male readers out there to lust for your beautiful body and masturbate to you...You did it to yourself. *Licking his lips while looking at Mane-lac, whose face couldn't be more red, even if she tried*

Mane-lac : *Swallowed her shame and continue to speak* W...Why do you masturbate to...to my photo anyway? Why? Why me? Why not those Power Ponies? Especially the gorgeous one...

Humdrum : Oh. You mean Radiant?...Who knows....Maybe it's because you are just like her....Both of you are fashionistas. A lady who loves beauty and attention, a mare who loves to stand in the spotlight. But while Radiant succeeds in achieving her dreams and nothing in her life ever goes wrong, or at least isn't so bad. You on the other hoof, kept failing and failing, falling down to rock bottom, until you were lost and became the crazy villain you are today....You really remind me of myself, you know? If I hadn't happened to be found and taken in by Power Ponies, I might have turned out to be a villain like you....

Mane-lac : *Yelling back when that one powerless sidekick compared her with himself* No! I am not like you! Everypony knows me now!! I am the greatest villain in history!! Everyone flinches from just hearing my name!! They notice me! They remember me now!!! Hah! Hah! Hah! *Tried to make an evil laugh, but once again she failed, for only the sound of a lady's soft laugh had come from her mouth*

Humdrum : It's seem like my theory is true...Your laugh seem difference now and you are more reasonable to talking with. *Place the book on his lab and smile*

Mane-lac : What do you mean? What's theory? *She cock her head with confuse*

Humdrum : Your crazy mind and behavior mostly happened because your crazy mane that implant directly to your brain. So when I shut down both of them. It's make you more calm and reasonable to talking with.....Mmmm....It's great to finally have chance to talk with you, Mane-lac. Yourself before losing your way.

Mane-lac : Myself...So this is why I felt son calm and thinking clearly again...
Touching metal band on her mane that wrap around her mane ...And I thought that I can tame and fully control my mane....Since when I let them control me...

Humdrum : It's great to talked with you, Mane-lac. *Humdrum stand up and turn away from Mane-lac. He walked to the window and open them to let the cold wind of the night come inside the room* But I think you should go now.

Mane-lac : What!? J...Just like that!? You will just let me go easily after you just success completely defeat and disabled my super power!? *Look at him with disbelieve. Here and now. He finally have chance to show everypony that he can defeat her by himself alone without any help from Power Ponies. A chance to be true hero and get all attention. But he uncaring and just let her go!?*

Humdrum : Yelp! I think I will let you go this time. Just like when you capture all Power Ponies and let me go. *He looking to the view outside of the room. Talking while turn his back to his enemy. Uncaring to protect himself.*

Mane-lac : I never intent to let you go!! I just didn't notice you at all!! *She looking to a defenses hero in front of her. Should I push him out of window and let him fall to death? She wonder...But thinking again. She is still a tricker and murderer...*

Humdrum : Whatever, just go back to your secret base that we Power Ponies not found yet. *Smile* I have to wake up early this morning. So I don't want to sleep late. And I kinda have something to finish first before I can come back to my dream. *He turn back to face Mane-lac without book or anything to hide the view of his twin penises from the mare in front of him anymore*

Mane-lac : W..Wah!! P...Pervert!! *She blushing hard and pretend to not look at his harden twin penises of a dragon in front of her. But her mind keep screaming "He have two! He have two!!" the whole time*

Humdrum : Sorry, it can't help...I'm not finish with jerk-off to your sexy photo yet and now the mare in the photo just stand in front of me and leaking the sweet sexual scene all over my room. So please just let go than I can finally calm this things down and hit the hay. *His twin penis throbbing and drop some precum to the floor. It seem harden like this for a while now since Mane-lac enter the room and Spike hide it with magazine and part of his body.*

Mane-lac : But this is the 12th floor, I don't think I could go down that way without my tendrils. *Looking at Humdrum with a deadpan expression, as she waved her powerless mane around by shaking her head*

Humdrum : Oh! Right...I don't think it will be the best idea for you to leave through the door the normal way, too much security. Come...please come here, I will take off the metal bands for you. *Humdrum walks to Mane-lac with the key in his hand, he choose to unlock the metal band on her tail first, just to have a chance to have a close peak of her soaking marehood, smelling the sweet scent of an aroused mare*

Mane-lac : Leave that one. *She said when Humdrum had finished unlocking the metal band on her tail and was about to unlock the other one on her mane* I think I want to have a clear mind for a while....

Humdrum : Oh. Ok. I'm glad to know that somewhere in your crazy mind, you still have some reasonable part of you in there...Oup!!! *He yelled in surprise when both of his hands were grabbed by Mane-lac's tendril-like tail, as she pinned him against the wall. His twin penises now uncovered, fully erect and throbbing for the mare in front of him to admire, a mare who tried to make a crazy smile but failed, with only a pleasant lady-like smile appearing on her face*

Mane-lac : Heheh...How foolish of you!! Releasing your enemy so easily like this!! *Laughing* So young, so naïve, so foolish...I'm not surprised that you can't be anything but a sidekick. *Walks closer to Humdrum, trying to look at his face, instead his twin red rods that seemed to draw her attention a lot* Now, what should I do with you...A young drake who defeated me and abused my honor...

Humdrum : *Calm* Mmmmm....How about you let me be the first male who takes you to bed hmm? For one, I am the only male who was able to defeat you?...Or you want to go fuck with those Power Ponies who have defeat you countless times instead? *He grins, as he had just revealed another secret of Mane-iac that he knew*

Mane-iac Oh...My....You even knew about how I had never slept with a stallion before too...You know a lot about me...too much...and that's kinda scaring me now....

Humdrum : *Tried to shrug his shoulders, but was not able to do so in his current position* Yeah, yeah. I know a lot about you indeed...I even know about how you played with dildos sometimes, so now you aren't completely a virgin. But you have still never let any male their way with you all this time. Because you think they are

all unworthy....So...Am I worthy enough for you now? *He grinned while his twin penises throbbed a bit like it was trying to lure the pony in front of them to come and have some fun*

Mane-lac : What makes you so sure that you will catch my interest and be the first male who will go and have their own way of fun with me? *She said as she was licking her lips while watching the two red throbbing penises in front of her*

Humdrum : *Looks away while talking with an edge of coolness* Well...I can tell you that. First, you are not into mares, so being defeated many times from the Power Ponies never counted, or else you might have already had many sexual encounters with all of them by now, maybe even an orgy. But I don't think they would have ever thought to do that with you at all. *Chuckles*

Mane-lac : That's true I suppose...*She said, curiously touching the two red, sensitive meats with her tendrils, causing the owner to shiver at the touch, but managing to still be able to talk*

Humdrum : S...Second, the villains don't usually fight each other, so you will never lose to any other male villains...Even if you accidentally cross into their territory one day and lose to them, sex will be the last thing they will think of having with you in their crazy minds...I don't think even they will entrust themselves to have sex with a trickster villain like you...

Mane-lac : Hmm!! Even if I never fought against any another villain in this town, I doubt they could defeat me and my henchmen. *She explained, as she began to become more curious with the taste of Humdrum's twin spires. Deciding she liked the taste enough, Mane-lac brought her face closer to Humdrum's left penis and slowly began licking the tip of it, making Humdrum moan in bliss, at the touch of

her wet, soft organ caressing his left cock. Even with this much pleasure, he still continued talking*

Humdrum : Mmmm...S...So third, you never do leave Maretropolis, so you will never create any doom days in another town....Oh!! * Flinched in pleasure when Mane-lac started sucking the tip of his left penis with her moist maw*

Mane-lac : *Mane-lac continued to suck the tip of his penis for a while before she briefly pulled back so she could reply * The people in this town are the ones who mock and ignore me. So, I will always be here to ruin their peaceful day! They must pay for ruining my hopes and dreams... *Returns to sucking Humdrum's left cock after her reply*

Humdrum : *Talking through shivering*A...And fourth...The Power Ponies are only group of heroes in this town that can fight you, nopony else in this town are daring enough to fight you and your minions, not even the police nor military presence here want to face you. *Humdrum closes his eyes and began to hum the pleasure song as his left penis receives a good massage*

Mane-lac : *Leaving the cock once more to talk to reply, but now using one of her tendrils on her tail to stroke Humdrum's right cock, deciding that it was ignored enough for now and deserved some fun too* Hahaha, those normal ponies would never stand a chance against my superpower. They never had enough courage to do so, and even if they did, they would still never win against me! *Laughing a bit before diving back in to continue sucking Humdrum's left cock, as it starts to leak some precum for her to taste, as she continued to stroke his right cock with her tail-tendril*

Humdrum : Finally...lastly...I am the only male hero in this town...And since you aren't a fillyfooler and have promised yourself to only have sex with a worthy male who can defeat you...I am the only one who had a chance...The only choice you had to fulfil your self-promise. *He finished his explanation with a chuckle and continued to enjoy the touch on his cocks, even more so since now the pleasure had doubled with Mane-iac's skilful attention to both rods*

Mane-iac :Such a big hole in my plan....Although, you are quite talented with your knowledge and organization abilities...I wonder why you ended up becoming just a sidekick in battle for the Power Ponies, you could of became the Power Ponies' mission operator or even an intelligence provider...*She said, removing her mouth from Humdrum's penis, letting her tendril-tail pleasure them both instead*

Humdrum : And just stay at H.Q? No way!! I'm not letting any chances to have an exciting adventure go to waste! It's the reason why I become a hero! But I'm also still a male drake, even if I don't have any superpowers, to stay safe at base and let those female super ponies fight in the front line. I don't think I can do that, I still have a male's honour to uphold. *Tried to hit his chest with his own hand to show how proud of himself. But his hands still stuck by Mane-lac tendril* Even if they have super powers and I don't...

Mane-lac : *Chuckle* Well...Well...such a gentleman you are...

Humdrum : Talking about being a gentleman, would you mind if we continued this on my bed?....I wish to return the favour and pleasure you too, while also having a taste of a sexy villain like you as well. *Grins*

Mane-lac : Oh...Alright then!...Here, allow me. *She stopped stroking his twin spires and moved Humdrum towards the bed, laying him on his back, before she climbed onto the bed as well, resting on top of him. She then turned around, to present her soaking wet pussy under her tight suit towards Humdrum face, while she faced her own challenge, his twin throbbing rods*

Humdrum : Mmm....Can you take off your suit first? It kind of blocks the view of the treasure you have back here. *He asked, while he licked the soaking slit through the fabric of her suit*

Mane-lac : No need for that Humdrum. *She explained, before the fabric around her flanks that hid her 'pleasure treasure' opened up like it was made from water. Showing her wet, pink pussy and winking clit in its full glory to the worthy male in front of it, making his eyes open in both surprise and amazement*

Humdrum : Wow...Did you can actually change the shape of your costume? This is new information for me...And I'm supposed to know everything about you...

Mane-lac : Only around that area actually, It's made so that when it is time to visit a toilet while I'm out on villain's duty, I can easily open the suit and do my business. *She explained, as she continued to lick and stroke Humdrum's penises once again, precum now pouring out from both rods, a pleasant and surprisingly tasty texture Mane-lac thought.*

Humdrum : Mmmmm....That's really smart of you...You don't want to know how much trouble it is for those Power Ponies when they need an emergency release while wearing their old traditional costumes... *Ending the talk, he started to lick the pussy in front of him in order to return the pleasure he received from before. He used his unique long fork like tongue to wrap around her clit, stroking it a bit, stopping it from winking to give her some forceful pleasure, before he release it, allowing it to wink freely in bliss. He then plunged his tongue deeper into her birth canal and started slithering inside, touching the sensitive fresh inside, making her moan loudly in bliss*

Mane-lac : Mmmm...That's a long tongue...It must be longer than a pony's...It feels so wonderful. I wonder why those Power Ponies never tried to get to you first before me...*Moaning lustfully, feeling the young drake's draconic tongue glide over every inch of her love tunnel*

Humdrum : *Taking back his tongue, he licked his lip that was soaking with Mane-lac's nectar* Oh...That's mostly because they see me as just a friend or worse...just a kid in their eyes...And unlike you who has a specific male you want to have sex with, they are free to have any male they want. They have stallions of their own now I believe...At least, I think they do... *Continues his licking, trying to get even deeper, to pleasure Mane-lac more and to show that he was the worthy male she waited her whole life for.*

Mane-lac : Ahhh...mmm....Well, they just don't know what they are missing...This passion...is something that stallions can't give...Mmmm....More actually.... *She said, while she continued licking one of Humdrum's penis at the same pace as he was to her pussy. It was like both of them were trying to test who could pleasure the other better, as the moaning sounds of a male and female echoed around the small bedroom*

Mane-lac : Hey kiddo, since you have two penises like this, will it make you cum from both at the same time when you orgasm? *She asked while continuing to lick one of Humdrum's penises, while stroking the other with her tendrils*

Humdrum : Not really...well....Rarely, like when both of them are getting the same treatment at the same time, since each penis has its own orgasm gauge that is

separate from each other. *Giggle after play the game joke* Hey! Do you know that reptiles that have two penises like me have a separate testicle for each? *He said with an inquiring tone*

Mane-lac : Huh? Really? ...No...I don't study about this kind of thing before, but please, do explain. *She answered in a bored voice, but in her mind, she was actually really interested about it and wanted to know more about the dragon genitals that she was playing with right now*

Humdrum : Well...From what I researched so far about my kind, I do know that I have two testicles just like mammals. But each penis of mine is associated with a single testicle located inside me, which also ejaculate separately when I reach orgasm, depending on which penis achieves it. *He explains, while continuing to

suck on Mane-lac's clitoris, causing her to moan loudly while his penis was in her mouth. This gave him shivering pleasure, but also let her know, that it was her turn to talk now*

Mane-lac : S...So...if I only play with your right penis, you will only shoot your cum out of this one, while the other shoots nothing correct? *She asked, while looking at both of his penises with growing interest*

Humdrum : Yeah! That's Right. That's so a dragon's other penis is ready to go for another round for the same female or other female in their herd if they happened to have more than one. With a second fresh batch of sperm ready to go, there is no need to wait for the male to recharge since dragons are able to switch between these two penises. Use the first, and then use the second while the first recharges and it repeats! So we can go for many rounds of sex with one female or even many females in a single session! *He explained in an excited voice*

Mane-lac : That's really interesting.... *She said, while trying hard not to sound excited herself. Now she was wondering how it would feel like if this dragon was to fuck her for the rest of the night and give her countless orgasm along the way* So....If I please both of your penises at the same time....Will you have a double orgasm?

Humdrum : *Grins and drools as he imagines it* Oh Yeah!!! It can happen. It had happened! And I like it a lot!! Something like that is easy to achieve when using both hands to masturbate, or when someone is sucking one and stroking the other. *He exclaimed, but was slowly sounding less excited by the end of his speech* But....I'm not sure if it is possible to get a double orgasm from just penetrative sex...Since from what I've read, reptiles like me only use one penis at time...

Mane-lac : Oh... well, well...I consider that a challenge then! Let's see if I can make both of your penises cum inside me at the same time! *She grinned and lifted herself up from Humdrum's abdomen, preparing herself by moving, and getting ready for a through fucking*

Humdrum : Are you sure that you really want to take both of my cock in your pussy at the same time? Is it not a bit too much for you? *He said with unsure after knowing what she said mean while looking at Mane-lac who now laying on her back. Ready to be mate in missionary style*

Mane-lac : Oh! Please! One penis of your is smaller than the stallion dildo I ever used. It need to be both of your cocks combine that can satisfy me! And with arrow shape like that. I think it possible for double penetrate, right? *Said with eager. Her clit winking with invite*

Humdrum : If you really sure about that. Then, fine. I like it that way too. *He grab one of her hind legs with left hand and grab right hand on both of his cocks. Squeeze it closer to each other and line it's tip at Mane-lac soaking entrance before slowly insert itself inside. Her pussy was made to accept something thick and blunt. So it easy for shape penises of him to get inside her*

Mane-lac : Oh...Your smooth barbs underneath your cocks...It made me feel strange.... *Moaning from number of barbs underneath both of Humdrum's cocks that scrape against her sensitive pussy's lip one by one before scratch her vagina's wall inside*

Humdrum : Y...Yeah...Mmmmm...I...It's really sensitive part of my cocks too... *Shivering from good feeling that his cock receive from her thigh's canal. But still continue insert it into Mane-lac slowly* And hey! I heard that some feline have barbs just to simulate female ovaries to trigger them to release eggs. Will you

going to release egg too? Since you are mammal just like them. *Grin and happy when both of his cock finally completely laid inside Mane-lac birth canal*

Mane-lac : Hah!! That's funny!! Do I look like cat mare to you!? Nope! Like I will let you bang me while I'm in mating season anyway. So don't worry to release inside. * protruding tongue, but suddenly flinch when Humdrum grab both of her hind legs with both of his hands and slowly pull his penis out until both tips of his cocks remain inside*

Humdrum : Oh! Yessss!! I will never lost a chance to cumming inside my porn star!! *Push his cocks back inside. Creating amount of pleasure to both party. He begins the fuck with low speed just to let his mare getting used to both of his cock and it's extra equipment like barbs and none-swollen knot*

Mane-lac : Ahhh....Mmm...N...Never in my life that I imagine myself to spread my legs to let none-superpower sidekick hero and let him fuck me senseless like this *Put both of her front hooves on her chest. Humdrum chuckle because it make her look like an adorable puppy dog*

Humdrum : Hay! I'm still in sense here...And yeah! Never in my life that I think I will have a chance to bang a powerful major villain like you too. This is like a dream come true. Mmmm...So good.... Better than dream... *Increase the speed of thrusting. Making both party pant and moaning with pleasure from their sensitive part of body scratching with each other in lovely way. Mane-lac vagina release a lot of nectar that make Humdrum able to fuck her easier and faster. *

Humdrum : Hmmmm? Hey, what are you doing? Are you trying to pull my tail? *He asked inquisitively, when he felt Mane-lac's tendril like tail wrap around the base of his tail. Pulling the tail can make dragon feel sudden pleasure sometimes.* Or are you trying to help me with thrusting? Do you want me to speed it up for you?

Mane-lac : Well, I gave you a permission to penetrate me. So I think this will be my turn to penetrate you! *Giggle* Ahh...Now let's see where your tail hole is... *She speaks to herself, as she rubs the tip of her tendril tail around the green scales underneath the base of Humdrum's tail. Trying to find the opening between the scales that she thinks might hide his anus, but she found none after searching for a while*

Humdrum : Sorry to disappoint you, Mane-lac, But you see, I don't have one... *He explained while managing to still keep up his passionate thrusting, while his mare's tendrils tickled the base of his cock from time to time while trying to find the hole*

Mane-lac : W...wha? What do you mean? How is that possible!?!

Humdrum : Well, maybe saying that I don't have one might be too much...The fact is that a reptile like myself only have one open hole call a "Cloaca". It usually only opens when we use it for waste and pee, but it is also where my penises are located and come out, as they are at the moment. So it's quite busy and not ready to be penetrated right now, sorry dear. *He chuckles and nuzzles Mane-lac's exposed neck. *

Mane-lac : Aww...That's so sad for me. *She expressed in a disappointed tone* I heard that some males like what I was planning, as they receive a very good feeling when their prostate gets stimulate thought anal penetration... *She lets her tendrils down and proceeds to simply let Humdrum continue fucking her for now*

Humdrum : Prostate? *Laughs* that's a mammal's organ...I don't have that either.

Mane-lac : Auuuuhhh!!! *She screams in a softy crazy fashion* Everything I know about "How To Please Your Stallion" is useless when it comes to you!! Your body is so different from us ponies, and filled with surprises!! Do you have anything that can surprise me more!?! *She rests her front legs from hugging Humdrum and simply let herself fall down so that she was laying her back on bed. Letting her dragon mate fuck her with full force*

Humdrum : Oh...I have one more, how about the fact that I don't actually pee though my penises? My penises have only one purpose, and that's for having sex and fucking. *Grins*

Mane-lac : *Remains silent in disbelief and surprise*

Mane-lac : Ah....Owww....H...Humdrum...Is it just my imagination or are your cocks starting to get bigger? My pussy is starting to hurt now...Oww... *She could feel the two penises in her pussy starting to increase in size somehow, because it was spreading her pussy wide to the hurting point. It may be true that a mare's pussy could stretch wide enough for a foal to come out, but her body hasn't experienced childbirth yet so her pussy remains tight...it wasn't ready to stretch that much just yet*

Humdrum : Oh...Sorry dear...I guess fucking my favourite porn kind of made me become greedy, I suppose two enlarging cocks in the one hole might be too much for you now. *He took one of his cocks out and resumed with fucking her with only one cock of his instead. Mane-lac sighed with relief, as now she was able to return to a comfortable, yet rigorous fucking once again. Interestingly, she realised that she only needed one cock of his to satisfy her now.*

Mane-lac : *She moaned as the fucking restarted and raised her front end up to see what had happened to her Humdrum. Upon looking upon her dragon mate, she saw that Humdrum had gotten bigger, he looked more mature somehow, with more muscle mass and a long, sharp face, very draconic...and quite handsome. And his other cock that was now throbbing outside of her? It was so big now, nearly the size of a stallion's own penis.* Humdrum....Your body...it got bigger...How?

Humdrum : Well, sometimes a dragon like me will suddenly have a growth spurt when they feel like being greedy. *He explained, as he kept fucking her now very tight pussy, letting his outside cock rub relentlessly on his mare's clitoris from time to time.*

Mane-lac : Ohhhh!!*She was panting hard from the barrage of double pleasure that her clitoris and inner vaginal walls were receiving* How far...Ahhh!....How big will you grow? Are you going to be as big as this room? Mmmm...You are going to tear me apart if you do it, but it's so hot somehow. *Her fear turns her on somehow, like a prey that was being fucked by her prime predator for his own pleasure, and this was the last feeling of pure pleasure she was going to experience before she was killed...A final ecstasy of pleasure*

Humdrum : Don't worry my dear, I'm not going to grow that much. *Laughs* Or else it should be my superpower by now. *Silence* I've just grown more mature that's all. My limit of growth is around 4-5 years from my current age, I am now just about the proper size to be able to please my mare without losing my mind to my greed and also losing control over my body. So, is this size is enough for you now? *He asked her, but he already knew the answer, because his cock was being

squeezed really well, like a caressing welcome hug from her love tunnel, bathing his hot cock and cooling it with its unique nectar. But he still wanted to hear her answer with her own words*

Mane-lac : Oh YES! It's just the right size!! Not too small until I barely feel anything, but not too big until it hurts my pussy and limits the pleasure, unable to fuck me with the full speed I crave. It's the right size for rutting...And I like the way your second cock is rubbing against my outer pussy lips and pleasure nub too...

She knows that many male mistake for what females really want, bigger isn't mean better. She always knew that what females really need isn't a big cock, but a once that is a proper size for the mare in question, to please them, to work with their body's love tunnel, to that they can both find a way to fuck with care, to bring them both to glorious orgasm, and not just a hole for the male to use to get his own orgasm...leaving the female unsatisfied and alone when he was done...No, her Humdrum was giving her a real and proper fuck, a fuck she deserved, no...that they both deserved.

Humdrum : I'm eager to hear you are loving this, but I know something you'll absolutely love. *He whispers to his mate heatedly, as he continues to fuck her inner walls and stoke her outside lips with his twin rods*

Mane-lac : Loving this? Don't be silly, I never said that *Lady Laugh* But...if you know something even better than this, then I won't mind if you show me. *She said that like she was not very interested, but in reality her insides were shivering in lustful anticipation* Mmmm, you are pretty strong, I suppose you are going to use your strong, toned draconic muscles and ravage me like a true apex predator? *She said in a bored tone, but in fact, she never thought it could ever get better than this, to have even more heavenly pleasure flow throughout her body than what was happening now? She just couldn't pass that up, how could this powerless sidekick show her a world of bliss even beyond this!?*

Humdrum : Oh? *Her mentioning of his increased strength caused him to pause, as the gears within his mind turned out a new idea to test his strength in their love-making* Well, maybe I should show you just how strong this little drake has become since we started, I think what I have planned next can wait...

Mane-lac : Okay, if that's what you wish, *She replied in her not interested voice* what do you plan on doing to m-AH! *She yelled in surprise as Humdrum grabbed her by the waist, lifting her up as he repositioned himself on the bed. Mane-lac held onto Humdrum's strong neck, surprised at just how much strength he had, her pussy quivered in lust around Humdrum's cock which remained lodged snugly inside the entirety of his movement. Mane-lac's pussy grew heated, as she knew that what he had planned...would pound her love hole until it was likely sore and tender, she truly was at the mercy of this apex predator, but she would never show it if she could help it*

Humdrum : You should be more concerned my dear, I don't think you're prepared for this, regardless, I know you'll love this. *Humdrum assured his mate, as he finished repositioning himself on the bed. He rested his back against the headrest, while he was squatting with his two powerful and strong legs, his outside cock now pointing forward, past Mane-lac's flanks, his inside cock still firming lodged inside his mate, holding her firming by her barrel* Now my dear, you may rest your back legs on my own.

Mane-lac : Are you sure? *She asked in mock hesitation* I may be too heavy for you; maybe you're not as strong as you think? *She smirk in satisfaction at her insult, potentially hurting his pride*

Humdrum : Ha! Don't you worry, I am much stronger than when we started, and I want to show you just how much, so please, rest your legs on my own. *His confidence was showing in his voice, Mane-lac was shocked upon hearing his

tone, he wasn't affected by her insult at all...Stunned, she followed his suggestion and rested herself upon his powerful legs, feeling quite comfortable, and strangely...safe, despite being at the mercy of this strong predator* See? I am stronger than you think *Laughs* so, are you ready my dear?

Mane-iac : I don't know what you're about to do, but I know I'm more than ready, so give me everything you got, I bet I won't even moan. *She responded in a challenging tone, but she knew she was weak at the knees, and likely to moan loudly from a single stroke of her insides. Pretending she didn't care was absolutely torture to her; she just wanted to be rutted after waiting so long. And now, she wouldn't have to wait any longer*

Humdrum : That eager hmm? Very well, you asked for THIS! *He roared, as at the same time, he used his strong back legs to thrust powerfully upwards, and brought his mate downwards to slam onto his cock, forcing a pleased yell from Mane-iac who contracted hard around his cock as she spasmed, while he roared at the blissful sensations rolling down every inch of his mighty cock*

Mane-iac: AHH! N-Not g-good at ALL! I feEL noTHINGG! *She was trying so hard not to give in to the pleasure, but after only a few powerful thrusts, she accidentally broke her tough super villain facade to ask for more* What are you doing!? Again! More! I want to feel like a goddess!*Humdrum obeyed her desires; he pulled out slowly...and then repeated the same action, slamming both his tool and Mane-iac's pussy into each other, each expressing their heavenly pleasure the only way they could, in moans, screams and roars. As his cock pistoned inside of Mane-iac's pussy, his outside cock that was pointing forward past her flanks, bounced in the same fashion, leaking plenty of precum from the pleasure of the act, coating her tail and flanks in his slick fluids*

The sex was slow, but very powerful, they continued in this unique position for many minutes, until Humdrum's arching muscles overpowered the pleasure he was receiving, and after firmly wreaking Mane-iac's pussy into a wet, sore mess, he dropped onto his tail, utterly exhausted, both he and Mane-iac look at the ceiling panting for air

Humdrum : Umm, Mane-lac. If we continue fucking like this, you won't be able to give me that double orgasm like you promised, you know? *He inquired, while hugging Mane-lac in his current position with both of his arms and with her back against his chest*

Mane-lac : *Weakly pants* W...What do you mean...?

Humdrum : Well...Because your pussy can't take both of my much bigger penises at the same time anymore, it means I can only have one penis at a time that can receive pleasure at any given moment. If we continue like this, the one cock in your tight pussy will be the only one that achieves sweet orgasm and fill you up when I start cumming inside of you. *He explained, letting both of his penises throb a bit. The one cock inside his mate's pussy received a pleasurable squeeze back as a reaction when it did that, but his outside cock just slapped against Mane-lac's flank as it begged to get some attention too.*

Mane-lac : Oh! Hush Humdrum! I can still take both of your cocks at the same time, did you forgot? I still have a spare hole!! *Blushes as she realised what she was offering*

She grinned after she saw him react with a hot blush on his face, taking that as an invitation, she pulled herself off of Humdrum's penis. She whined when the warm rod left the depths of her love tunnel, now feeling a sense of emptiness, but it was necessary, because of what she had to prepare herself for, a special position that she had in mind so that she could fulfil her promise to her mate. She laid herself on her side against the bed sheets with her soaking sex presented to her confused drake. But when he saw that her pussy was now completely horizontal with her anus, he finally understood what his mare wanted him to do.

Mane-lac : Use my tail hole Sidekick! And I will....Ah!!! W-What the!?! *She flinched as the sudden touch of a cold liquid chilled her bones, something oily and cooling was being rubbed against her sensitive anus ring*

Humdrum : Well, well...You just said what I really wanted to hear all this time dear, that's why I already have some lube with me in my room. In case I was going to have a chance to fuck somepony's backdoor. *He giggled to himself and kept rubbing the lube on his mare's backdoor, making it all wet and slippery for his big

cock to slide into easily, and so that she would feel as little pain as possible, only pleasure*

Mane-lac : Y...You tricked me again, you crafty drake!! You really do know me too well...But do you really need that much lube for this? It's so much and colddddd!!
She whined, as she trembled from the cool liquid on and within her anus

Humdrum : Trust me dear, you will need this much and you will be very glad for it soon, see, unlike your vagina, your backdoor doesn't create any natural lubricant to lube itself, Mane-lac. I don't want to hurt you by going in dry as well and only rely on my merger fluids when I penetrate you. I aim to please you after all, not to hurt you. *Once he was finished, he left the lube bottle on the bed next to them and slowly inserted both of his cocks into both of the warm holes of his mare. Mane-lac bit hard on the bedsheets to suppress her moan, and the little pain she felt from her backdoor being invaded for the first time, now she understood why Humdrum used that much lube, she was very grateful the he did, perhaps she would reward him by milking him completely when the time came to enhance and prolong his pleasure*

Mane-lac : Ggggggggaahhhhh....Ooooooh!! *She moaned, as she released the bed sheets from her mouth* I feel so full...But you know, I'm not really that weak. *She said to act tough* I can endure the pain my Gentledrake! *Although she was thankful for the extra lube on her anus, she still believed she would have been fine without any. But that was only because she doesn't know how much pain she would have received if she had taken on the dry penetration on her anus without any lube first, especially with the big cock of Humdrum's with many soft barbs underneath, lining his thick shaft*

Humdrum : I know you are strong Mane-lac, and I know that you can endure some pain, but if we have the choice to avoid the pain, to allow for better passion- *A sharp tingle of pleasure shot through his groin at this point*Ohhh....So why...Mmmm Why we not avoid it then, hmmm? ...Ahhh....This is soooo good... *He said during the heightening pleasure focusing through his lower regions, as he slowly pulled and pushed both of his penises from both tight holes of his mare. The pleasure was heavenly to him, for both of his sensitive rods finally received the pleasurable feelings he desired at the same time. *

*But he wasn't the one that was receiving double pleasure. Mane-lac was also moaning loudly along with him, for she was she was getting not just two but three pleasure senses being simulated at the same time. One from her clitoris, the second from her inner vaginal walls and the third from her prostate that shot

pleasure through her core each time her male rubbed against it, again and again by the big barbed, draconian cock of her dragon mate*

Mane-lac : Y...You seem know a lot about sex Humdrum...Mmm... *She managed to think, while being pounded by her mate*

Humdrum : W...Well...It's because I'd previously learnt about...Ohh....A-about sex with somepony else before...S...so I could please them the right way...Mmm...I've been practicing a lot since then...

Mane-lac : So, I'm not your first!? *She questioned him, even though a moan*

Humdrum : No...You are my dear.. *He managed to say, replying to her question in a haze of pleasure, but she seems didn't care to listen his answer at all, instead she desired another request, one of a more lustful nature, as her passion rose higher and higher, closing quickly towards the finishing point*

Mane-lac : Humdrummmm... *Moans lustfully* Can you go faster pleaseeeee...Ahhh!....Please go more fasterrrrr....

Humdrum : As your wish my little porn star, but only because you said please. *He said as he grinned and then proceeded to thrust faster with more force, making a slapping sound of between their flesh again and again, the tell-tale sounds of passionate love resonating throughout the room, the sound of flesh making repeated contact and bodily liquids splashing louder and with more frequency*

Mane-lac : Ohhh! You've done quite well for a humble sidekick...Mmmmm....I'm so closeeeee now...I'm so closeeeee!!! Don't Stop!

Humdrum : Me too!...B...But my cock in your ass is going to explode first, before the one in your cunt!!

Mane-lac : D...Don't you D-DARE!! I want both of your male hoods to double cum inside of me...At...The... SAME TIME!!!

Humdrum : A...alright...let's change your position a bit then, Mmmm.... *He lifts Mane-lac's left hind leg to loosen up her tight ass, allowing him to fuck her with both of his cocks into at full speed and at the same pace, with his twin pillars now receiving the same amount of pleasure. They will both explode at the same time...for the next blissful minute they kept at this pace....until...*

Mane-lac : AHHHH!!! *Mane-lac howls in overwhelming pleasure as she finally explodes herself, her eyes and mind locked firmly onto her male lover as she reached heaven's cliff. She had reached her own orgasm before her dragon mate, causing her vagina to involuntarily soak humdrum's cock inside her pussy with lots of her warm lady juice as both of her holes squeezed hard on both of his hot, pulsating rods, trying their hardest to bring both of his penises towards orgasmic bliss, milking them both to cum hard until they finally to get what they want. *

Humdrum : GAHHHH!!! *He pulled his cock free from his mare's extremely tight holes one last time, before pushing back into her at full force causing both of his swollen knots to plug into her, the cock in her vagina crashed against her cervix and his other into deepest part of her ass. He held tightly onto his mate's leg, trembling as he felt the rush of his seed shoot through his twin prides, blasting out the openings like geysers, shooting his life-giving, warm seed into the deepest reaches of his mate as he filled both her ass and her womb with very potent and fertile, pure white draconic semen...Both him and Mane-lac drifted at heaven's gate for a long while, their minds solely focused only on their groins and the

absolutely overpowering pleasure shooting through their beings, until finally, the pleasure ebbed and they both floated back towards the living world.*

Mane-lac : *Hard Pant**Exhaustive Panting*

Humdrum : *Despite all the energy he expended during their hot and passionate love-making, Humdrum still found the strength to slowly climb up the bed and lie down on his side on his bed, hugging Mane-lac tightly from behind. Both of his cocks were still locked tightly within both of Mane-lac holes, as they slowly filled her with even more of his seed with each small spurt again and again, just waiting until they had both become soft enough to pull out of his mare*

Mane-lac : Thank you...My gentledragon...I really needed this...a good...fucking...
She expressed exhaustively, before yawning loudly finally falling asleep within her drake's arms

Humdrum : Thank you...My little villain... *He whispers into the ear of his villainess lovingly before kissing her on the cheek, and then he too, let himself drift off to sleep, his mare held safely in his arms...*

Mane-lac : ZZzzzzZzzz *Lady-like snoring*

Humdrum opened his eyes to see, making sure that his little villain was completely asleep in his arms. He could now feel that both of the knots of his penises had deflated enough for him to take out from both of her tight passages now. He closed his eyes and slowly removed his penises from his partner, the villain moaned in her sleep when both of her holes became empty again, but she didn't wake from her sleep. Humdrum felt his semen pouring out of her vagina and anus when he removed his cork-like knots from her holes. Humdrum...No...No longer...Spike, got up and sat beside the fictional villain, looking upon her with a sad smile as he let both of his soft cocks slowly return into his slit, his body returning to his smaller, younger self once again as his greed dissipated from his body

Spike : It's funny....At first, the reason why I brought the new 'Power Pony Magically Enchanted Edition' was to come back to this world again as Humdrum. Then I set out to try and win Radiant's heart, since she has an appearance and personality similar to Rarity, I was just going to use her as practice for courting the real Rarity, since this world was just a made-up world. This world is like a game...If I fail or do something wrong that prevented Radiant from loving me, I could simply

reset this world and try a different method as many times as I wished, learn to court her better, learn to please her right.

He picked up his Playcolt magazine and his Power Ponies Villain Information Book to take with him on his return trip, since it's something that doesn't belong to this made-up world

Spike : *Sigh* But ever since I lost focus on Radiant, I became more interested in you? I don't know how it happened...The more I knew about you, the more interested I was in knowing you, to know your past, your talent, the reason why you became bad...I knew many things about you after many fights, many discussions, the many times I reset this world...Until now...After 16 resets...I've finally arrived here....I finally had sex with you again...In a different place using a different method. You, a fictional villain character that made me spend nearly all of my time and energy, just to win her heart; I never gave up, no matter how many times I failed. I learned so much about you and tried to use all the knowledge I gained...just to win your heart...And now...You finally have a happy Ending.

*Spikes looked up into the air and saw the light of the portal slowly opening up, it was the signal to show him that this story had reached its end, now he had to return back to his world...Back to Equestria. *

Spike : In all the Power Ponies comics I've ever read, there had never been a happy ending for you, can this count as a happy ending? I don't know...

Looking back at the sleeping villain with small smile.

Spike : Mane-lac....Do you know that you are really the first mare I've ever have sex with? Even if it hasn't happened in this timeline, you can't remember me at all after those resets, but all of that sexual practice...It was always you...You taught me

so much about love and lust...And for that, I thank you, and will always be eternally grateful.

*The light portal was now becoming bigger and bigger; Spike's body slowly turned into light, being slowly drawn into the portal like dust in the wind. *

Spike : *Sigh*....If only you weren't just a fictional character...if only you were a real pony....maybe just maybe...We could have a date together in Equestria...I will never able to take you on date here, since the book's story has a time limit of only one day and night before ending and the world resets...

He closed his eyes as his body completely became light, and disappeared into the portal, returning him back to his world....But not before he said his last words

Spike : ...Maybe I could ask you to be my special somepony, instead of Rari-

*He never finished his sentence...his voice disappearing, along with this made up word that was completely wiped out after he left the world....The world was now reset....All progressions and memories of all the characters in this fictional world, became zero once again... *

Spike re-appeared on his bed, within his own bedroom at Twilight's Castle, the 'Power Pony Magically Enchanted Edition' book was lying open beside him, along with a piece of paper that he used to note what he did in each timeline, including the results of each action and how they all ended. He placed the two books in his hand beside his notes and looked out of the window. He smiled when he saw the morning sun still in the same position, before he entered the Power Ponies book world

Spike : It seems only 15 minutes passed while I was away. *Sigh* It's great that the time in the real world moves much slower than the time in the comic world, It allows me to enjoy my book time without worrying about what is happening in my real life. *He caught the scent of himself. * Ah...I think I should remove all the smells of sex first before anything else by having a shower now.

Spike hummed a song to himself as he got up from bed, snapped his towel around himself and entered his own little shower room, located inside his own bedroom...Without knowing that Twilight was standing in front of his bedroom door right at that moment, in fact, she was here for a while now.

Twilight : *Hears the sound of the shower running* So, you've decided to wake up now, Spike?

Spike : Oh! Good morning Twilight!! *He shouted from the shower room to answer Twilight*

Twilight : Why do you wake up so late these past few days, Spike!?! And what's with you locking the room all the time!! *She tried to open the door of Spike's bedroom again, but as she thought, the lock was still engaged. Even if she could just teleport into his room and bypass the lock, she wouldn't, because the last time she did it, she happened to see something that she shouldn't have seen. So now, she doesn't wish to do it ever again. *

Spike : What?! Can't I have some privacy!? I am an adult now, you should know that I have that right! You aren't my mother! Even if you hatched me yourself from my egg with your magic! *He shouted, while cleaning soap up from himself*

Twilight : But your lateness is ruining our To-Do-List!! Can't you just tell me what you do every morning that makes you so late!? So I can adjust the time in our schedule and make up for it!?!

Spike : *Responds as he walks out of shower* Just add 30 minutes for private time, okay!

Twilight : What do you mean by-....O...Oh...*Blushing* Oh...Ok....I understand now...Sorry...*Never knew that you could last that long* *She whispers the last part to herself* B...But we are really late now! Are you done with what you do now!? We still have some books to re-organize before we open the royal library!

Spike : Yeah! Yeah!! I'm coming!! *He leaves his towel on the back of the chair and then walked to the door to face Twilight*

Twilight : Coming or cumming? *She suddenly asked without even thinking about it, but once she realized what she had said, her face became flushed with heat and became visibly red. She also felt uneasy once the handsome dragon opened the door to stand in front of her*

Spike : Just coming, egghead, as in movement. What did you think I meant? *grins* Oh...So you thought that I was jerking off while talking with you? Naughty pony....*He shook his head with a disappointed expression toward his housemate*

Twilight : M-Me!? N...Naughty!?! *She looked at Spike with a blushing, angry face* I am your sister you know!! You should respect me and not talk about something like that to me!! Has growing up made you more shameless or something!?! And what's with that slang word!?! *She turned herself away from Spike and walked away from him, to hide her red face from him*

Spike : Slang?...Says the mare who thought that I said 'cumming'.... *He smiled knowingly, and walked after Twilight* Or are you the one who wants to be 'cumming'? I can help you if you want, I've learnt a thing or two from that 'certain book' that taught me how to please mares. *He explained, looking at that lovely, attractive purple flank while grinning* Hey, I don't mind a little incest too you know...Sister. *He said with a laugh*

Twilight : Aurghhhh!!! Stop telling me! Stop talking!! Stop making me all hot and bothered!! Stop TURNING ME ON!! Augggghhhh!!! *She screamed, walking away briskly with loud hooves scurrying on the hard floor, trying very hard to keep her tail from lifting up, preventing the dragon behind her to see how much his words were affecting her*

Spike : Oh!! My practicing is a success!! I can turn you on now! So, if I play it right, Rarity will finally fall for me! Yeah!! *He yelled with a cheerful voice, like a teenage boy who succeeded in some silly thing*

Twilight : Y...You practiced courting a mare...w...with me!?! *She said in a disbelieving voice, along with a hint of disappointment hiding in her tone*

Spike : Nah! I usually practice with a certain book. You happened to be a plus one, just like a bonus stage for me. *Giggle*

Twilight : Oh! Yeah...yeah!! Why don't you just go ask Rarity out already!! Hmmp!!...(Before I will be the one who falls for you instead...)*She whispered that last sentence to herself. *

Spike : *Shaking his head* No....I don't think I'm ready yet...I still need more practice...Rarity is a mare with high standards. With the experience I have, it's still not enough *He mumbles to himself before suddenly turning to call out Twilight*Oh...by the way sis!

Twilight : What!?! *She looks back at him and felt instant regret upon hearing and seeing his next action*

Spike : Do you wanna cum? So I can practice how to please mares with the real deal!? I have so many finger techniques I'm really eager to try! Do you mind being my test subject? *He said with a smile, and with a handsome but alluring voice that could easily make any mare fall for his charms. The additional, suggestive movement of his fingers to her also added to his charm, something that hooves wouldn't be able to do. *

Twilight : SPIKE!!!! *Her embarrassment reached a point so high that now she was yelling Spike's name very loudly, the crystal windows around her trembling, nearly breaking from verbal outburst...She wanted this torment to end so badly. But she knows that as long as this handsome dragon is still living here with her, still unable to win Rarity's heart, the situation was going to repeat itself again and again for who knows how long...

She sighs to herself, It's so hard to live with a handsome, none-blood related dragon brother...Twilight said to herself embarrassingly

Meanwhile in Spike's bedroom

The 'Power Ponies Magically Enchanted Edition' was still lying open on the bed. Suddenly, a familiar transparent green slowly crawled its way out from the book. Something that did not belong to the real world, but was trying so hard to reach someone of this world, to invite him back into her world again. A cold mare's voice echoed throughout the room...

"...I don't mind..."
