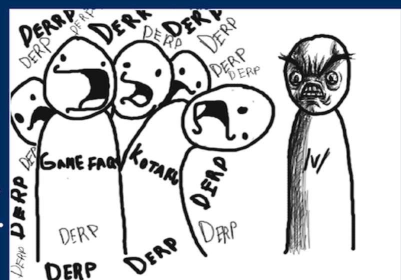
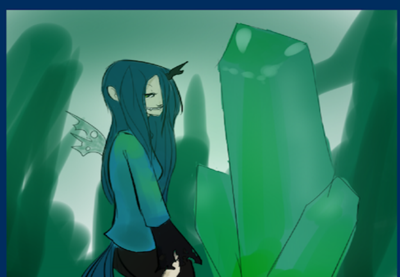
OCTAVIA'S REVENGE

After being (inadvertenly) humiliated at a club by Normal Norman, german exchange student Renate "Octavia" Pfeiffer has set herself on the path of vengeance! Prepare to be bamboozled, flabergasted, and left outright stupified as she plots Norman's downfall, employing an old and dark family secret! Will she succeed? Will Norman escape a terrible fate? Will they go too far in order to achieve their goals?! Mystery! Suspense! Magical bullshit! All that, and more...

A HORSEFUCKER'S TALE



To describe " A Horsefuckers Tale" is almost impossible. It is an epic that could rival The Lord of The Rings in terms of storytelling and character development. It gave me all kinds of feels and left me crying while masturbating on my lamp. This is a must read story that will forever hold a place in your heart and in your soul as the best story ever written. Truly we as a human race are unworthy of reading such a masterpiece of literature.



IN SEARCH OF MOTHER

After a one-night stand with a disguised creature from another world, Anonymous is left with more than just a goodbye note. Now, with a hundred half-magic-bug, half-human children to look after, his life has been flipped entirely upside down. When one daughter seeks answers to her heritage, she's willing to make the journey all the way to Vegas with all of her brothers and sisters in tow- and Anon has no choice but to follow them.

/mlp/ is a product of 4chan.org. Nothing in this book should be taken seriously, we take no responsibilities if anyone attempts or feels threatened by the contents that dwell inside. It is not an official My Little Pony: Friendship is Magic product. It is not anything. It is best described as a parody, but to say it is a parody is to say it is something, which is far too charitable. The best way to describe this "book" is as excrement passed through the roiling bowels of the Internet, somehow finding its way into your house like a backed up toilet. Absolutely no quality control was present for most of the stories presented here. The text of this vile shit is public domain. My Little Pony: Friendship is Magic is (c) to Hasbro inc, but this is technically parody, so whatever.
