miny is a product of 4chan.org. Nothing in this book should be taken seriously; we take no responsibilities if anyone attempts or feels threatened by the contents that dwell inside. It is not an official My Little Pony: Friendship is Magic product. It is not anything. It is best described as a parody, but to say it is a parody is to say it is something, which is far too charitable. The best way to describe this "book" is as excrement passed through the rolling howls of the Internet, somehow finding its way into your house like a backed up toilet. Absolutely no quality control was present for most of the stories presented here. The text of this vile shit is public domain. My Little Pony: Friendship is Magic is (c) to Hasbro inc, but this is technically parody, so whatever.

A SECOND LIFE

BEHIND THE SCENES

FOR THE SAKE OF A LADY

Discovered by Celestia and Luna and originally thought to be a monster from Tartarus, Luna takes Anon under her wing and teaches him Equestrias language and customs.

I can't really describe "Behind The Scenes" other than the fact that it involves Lauren Faust and Megan McCarthy having sex.

Having stalked Anon for the majority of the time in Equestria, Rarity sees the error of her ways and tries to make up for her wrong doing.
