imply is a product of Hasbro.com. Nothing in this book should be taken seriously; we take no responsibilities if anyone attempts or feels threatened by the contents that dwell inside. It is not an official My Little Pony: Friendship is Magic product. It is not anything. It is best described as a parody, but to say it is a parody is to say it is something, which is far too charitable. The best way to describe this "book" is as an enactment passed through the rolling bowels of the Internet, somehow finding its way into your house like a backed up toilet. Absolutely no quality control was present for most of the stories presented here. The least of this vile stink is public domain. My Little Pony: Friendship is Magic is (c) to Hasbro inc, but this is technically parody, so whatever.

SONIC BOOM

After a Hearth's Warming Eve spent together, Anonymous goes through a revolutionary phase when he realizes that Rainbow Dash, his closest friend in this world, has been harboring feelings for him that he never even noticed. How did he never notice? Why him, and not a stallion? Is he some kind of xenophiliac deep down?

BARKEEP

Anon has it good. A nice large home, a big backyard like he has always dreamed about. Basically, the envy of all men, right? Not exactly. Since he was wrenched from his home and transported to Equestria, he feels nothing but an empty void in his heart. What's the point of living a new life if it could be taken away from you all over again? Will one mare be able to help him see that love can conquer anything?

THE SWEETIE CLOP CHRONICLES

After an 'educational' session with her dad, Sweetie gains uncontrollable urges to sex whenever and wherever.
